thoughtfully in every stage of the writing process without compromising creativity or critical thinking. Feeling conflicted about integrating artificial intelligence (AI) into your writing instruction? You're not alone. In a world where AI-generated text can seem like a writing teacher's enemy, incorporating it into writing instruction may feel like an act of betrayal. The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking.

Artful AI in Writing Instruction offers strategies and lessons for middle and high school teachers to harness AI in a positive way, integrating it into the writing process and evaluating the ethics of its usage. Written by a full-time high school teacher, Brett Vogelsinger, the book focuses on evergreen principles and ideas rather than specific AI tools, providing concrete steps and lessons that teachers can implement without being technology experts. Acknowledging the varying perspectives of teachers on AI in writing instruction, from skepticism to enthusiasm, Brett offers a human-centered, considered, and ethical approach to using generative AI in the classroom. Demonstrating how AI can be used artfully in the classroom to enhance students' writing skills and foster reflection on the writing process, this book provides standards-aligned lessons that detail how AI can support instruction and assist students at each step of the writing process, from prewriting through publishing. It emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom. Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction. Includes chapter features such as quotes from esteemed writers, real teacher and student voices, cautionary notes, and Bot Thoughts entries of example AI output.

Artful AI in Writing Instruction is a book that explores technology with humility, critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development.
