## **Christian Identity And Religious Pluralism:**

**Religions in Conversation** Michael Barnes, 1989      *Christian Identity & Religious Pluralism* Michael Barnes (s.j.), 1989

Christian Identity Borght, 2008-07-31 In this age of globalization a need for a communicative explanation of personal and group positions also motivates Christians to describe more precisely their identity in relation to other actors in society What makes a Christian a Christian What is specifically Christian in social actions or political calling Is there a difference between Christian justice and justice in general and the way Christians deal with justice What is our calling as Christians The contributions in this volume are the result of the 6th biannual IRTI conference in Seoul 2005 on this theme      **Religious**

**Identity and National Heritage** Francis-Vincent Anthony, Hans-Georg Ziebertz, 2012-06-12 What is the interplay between religion and national culture in modern times Distinguished scholars reflect on this question based on empirical research They offer a vast set of insights about how religious identity is connected to the national heritage in which people are born and brought up      Religious Truth and Identity in an Age of Plurality Peter Jonkers, Oliver J. Wiertz, 2019-08-05 This book deals with the intellectual aspects of having diverse religious expressions in proximity and the socio political consequences It provides a multi disciplinary perspective on this complex subject cross fertilizing work on religious plurality with truth claims from theologians as well as philosophers from the continental and analytic traditions The book includes three major parts Part 1 explores the ideas around religious diversity and truth Part 2 draws out the epistemic import of religious diversity and Part 3 concludes the volume by examining the practical and social aspects of religious diversity Bringing a transdisciplinary perspective to a topic that remains at the forefront of conversation around the religious life of the world this book will be of great interest to scholars of Religious Studies Theology and the Philosophy of Religion      **Christian Identity & Religious**

**Pluralism** Michael Barnes, 1989      Christian Identity International Reformed Theological Institute. International Conference, 2008 The volume offers contributions reflecting the understanding of Christian identity in the midst of changing cultural socio economic political and religious context in a globalized world      **Religious Identity and Renewal in the Twenty-first Century** Simone Sinn, Michael Reid Trice, 2016-01-14 Religions carry strong visions of renewal and thereby have the potential to trigger dynamics of change in all spheres of human life Religions have contributed to societal transformation and processes of renewal spark intensive theological debates The renewal of religious identity is informed by how religious communities interpret their traditions and past present and future challenges to themselves society and the world at large How do religious communities understand their own resources and criteria for renewal in the twenty first century In this publication Jewish Christian and Muslim scholars analyze and reflect on the meaning and dynamics of religious renewal and explore the meaning of religious renewal across religious traditions Religi se Identit t und Erneuerung im 21 Jahrhundert Untertitel J dische christliche und muslimische Perspektiven Religionen haben klare Vorstellungen von Erneuerung und damit das Potential in allen Sph ren menschlichen Lebens Ver nderungen einzuleiten Religionen haben

schon immer zu gesellschaftlichen Veränderungen beigetragen und Erneuerungsprozesse durch kontroverse theologische Debatten ausgelöst. Die Erneuerung religiöser Identität ist abhängig davon, wie religiöse Gemeinschaften ihre Traditionen und ihre gegenwärtigen und zukünftigen Herausforderungen für sich selbst, die Gesellschaft, in der sie leben, und die Welt als Ganzes interpretieren. Wo sehen religiöse Gemeinschaften ihre eigenen Ressourcen, und welches sind die Kriterien für Erneuerungsprozesse im 21. Jahrhundert? In dieser Publikation analysieren, reflektieren jüdische, christliche und muslimische Wissenschaftlerinnen und Wissenschaftler die Bedeutung und Dynamiken religiöser Erneuerung und untersuchen die Bedeutung religiöser Erneuerung in den verschiedenen religiösen Traditionen. *Many Mansions?* Catherine

Cornille, 2010-04-01. These superb essays explore the phenomenon of individuals who identify themselves as followers of more than one religious tradition. The results prove that the late Joseph Kitagawa was prescient when he cautioned that the world is Easternizing as much as it is Westernizing, and that modernization is a far from adequate key to name what is happening in world religious history in our age. **Religious Pluralism and Christian Truth** Joseph S.

O'Leary, 2016-02-25. This is the second of three essays in fundamental theology along with *Questioning Back* 1985 and *Conventional and Absolute Truth* 2015, which attempt to reassess the status of Christian doctrinal language within the contemporary regime of truth. Reflecting on the reality of religious pluralism as the governing horizon of theology today, it proposes that the very notion of religious truth needs to be rethought. In a dialogue with Derrida, it argues that the effects of dissemination and difference have indeed unsettled any project of pinning down truth in a definitive, substantial way, while at the same time it defends the objectivity of concretely situated truth judgments as more than merely an effect of the play of language. The Buddhist conceptions of emptiness, conventional truth, and skillful means are further explored in *Philosophie occidentale et concepts bouddhistes* 2011, which allow a positive religious significance to be found in this mutation in the status of Christian truth. **Two Faiths, One Covenant?** John T. Pawlikowski, Eugene B. Korn, 2004-11-26. Judaism and Christianity

are religions bound together by their claims to the same biblical covenant initiated by God with Abraham and his descendants. Yet despite the inseparable connection between the election of Israel and that of the church, between the old and the new covenant, this shared spiritual patrimony has been the source of a type of violent sibling rivalry competing for the same paternal love and inherited entitlement. God, it seemed, had but one blessing to bestow. It could be given to either Jacob or Esau, but not both. In the twenty-first century, however, Jews and Christians are challenged to reconsider their theological assumptions by two inescapable truths: the moral tragedy of the Holocaust demands that Christian thinkers acknowledge the violent effects of theologically delegitimizing Jews and Judaism, and the pervasive reality of cultural and religious pluralism calls both Christian and Jewish theologians to rethink the covenant in the presence of the Other. *Two Faiths, One Covenant: Jewish and Christian Identity in the Presence of the Other* is a breakthrough work that embraces this contemporary challenge and charts a path toward fruitful interfaith dialogue. The Christian and Jewish theologians in this

book explore the ways that both religions have understood the covenant in biblical rabbinic medieval and modern religious writings and reflect on how the covenant can serve as a reservoir for a positive theological relationship between Christianity and Judaism not merely one of non belligerent tolerance but of respect and theological pluralism however limited Two Faiths, One Covenant? Eugene Korn, John Pawlikowski, 2005 In the twenty first century Jews and Christians are challenged to reconsider their theological assumptions by two inescapable truths the moral tragedy of the holocaust demands that Christian thinkers acknowledge the violent effects of theologically delegitimizing Jews and Judaism and the pervasive reality of cultural and religious pluralism calls both Christian and Jewish theologians to rethink the covenant in the presence of the Other Two Faiths One Covenant Jewish and Christian Identity in the Presence of the Other is a breakthrough work that embraces this contemporary challenge and charts a path toward fruitful interfaith dialogue The Christian and Jewish theologians in this book explore the ways that both religions have understood the covenant and reflect on how it can serve as a reservoir for a positive theological relationship between Christianity and Judaism not merely one of non belligerent tolerance but of respect and theological pluralism however limited **Fragile Identities** Marianne Moyaert, 2011 Preliminary Material Introduction The Theology of Religions The Theology of Religions and the Tension between Openness and Closedness A Critique of the Pluralist Model of Interreligious Dialogue The Cultural Linguistic Theory Postliberalism and Religious Incommensurability The End of Dialogue A Theological Critique of Postliberalism Interreligious Dialogue and Hermeneutical Openness Testimony and Openness A Theological Perspective Bibliography Index of Subjects Index of Names **Commitment of Faiths** , 2002 Context, Plurality, and Truth Mika Vähäkangas, 2020-02-10 The world has shrunk in the processes of globalization and the old ways of actively ignoring plurality in theology are no longer viable Contextual differences between different Christian traditions and theologies are highly visible due to improved communications and migration These differences also witness that this plurality has existed since the very beginning of Christianity Religious studies demonstrate that no religion is pure and hermetically sealed from others but they all are syncretistic in the sense of giving and taking In the world of religions where boundaries are porous and the internal plurality of Christianity is vast there is a temptation either to reject the plurality in a fideistic manner or succumb to relativism The first solution is intellectually hard to defend and relativism is often seen as detrimental to Christian identity This book proposes a way of recognizing the contextual and syncretistic dimensions of pluralism while not surrendering to relativism Christian identity and tradition can be affirmed while staying open to the challenges of pluralism *Pluralism: The Future of Religion* Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is

motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions

*Investigating Christian Privilege and Religious Oppression in the United States*, 2019-02-11 Today the United States stands as the most religiously diverse country in the world This diversity poses great challenges as well as opportunities Christian denominations and their cultural manifestations however often function to marginalize exclude and deny members and institutions of other religions and non believers the privileges and access that accompany a Christian affiliation Christianity is the privileged religious perspective in the United States since Christian groups people and organizations often have the power to define normalcy Christian privilege comprises a large array of benefits that are often invisible unearned and unacknowledged by Christians At times overt while at other times more subtle as Christian religious practice and beliefs have entered the public square the clearly religious meanings symbolism positionality and antecedents of these practices and beliefs betray claims to mere secularism The effect of the so called secularization of Christian religious practices and beliefs not only fortifies but strengthens Christian privilege by perpetuating Christian influence in such a way as to avoid detection as religion or circumvent violating the constitutional requirements for the separation of religion and government Christian dominance therefore is maintained often by its relative invisibility With this invisibility privilege is neither analyzed nor scrutinized neither interrogated nor confronted *Investigating Christian Privilege and Religious Oppression in the United States* addresses Christian privilege as well as religious oppression since the two are in symbiotic relationship oppression toward non Christians gives rise to Christian privilege in the United States and Christian privilege maintains oppression toward non Christian individuals and faith communities This anthology also provides historical and contemporary cases exposing Christian privilege and religious oppression on the societal institutional and personal interpersonal levels A number of chapters include sections suggesting change strategies and in particular ways to achieve the national goal of religious pluralism in the United States

*Hindu-Christian Dual Belonging* Daniel J. Soars, Nadya Pohran, 2022-03-03 This book focuses on dual belonging within Hindu Christian contexts Written by experts in a variety of fields the chapters explore the theological philosophical and cultural anthropological debates relating to religious pluralism religious language and social identity while addressing the fact that both Hindu and Christian forms of self understandings have been significantly moulded through their interactions in South Asia and across certain Euro American horizons The limits of the definition of dual belonging are tested via case studies and contributors address the question of whether there is anything distinctive about dual belonging across Christianity and Hinduism specifically A timely contribution to the emerging subject of dual religious belonging this book will be of interest to academics in the fields of Hindu studies and Christian theology Hindu Christian comparative theology religious pluralism interreligious relations the sociology and anthropology of

religion and comparative theology and philosophy      Critical Religious Pluralism in Higher Education Jenny L. Small, 2020-03-26 This text presents a new critical theory addressing religious diversity Christian religious privilege and Christian hegemony in the United States It meets a growing and urgent need in our society the need to bring together religiously diverse ways of thinking and being in the world and eventually to transform our society through intentional pluralism The primary goal of Critical Religious Pluralism Theory CRPT is to acknowledge the central roles of religious privilege oppression hegemony and marginalization in maintaining inequality between Christians and non Christians including the nonreligious in the United States Following analysis of current literature on religious secular and spiritual identities within higher education and in depth discussion of critical theories on other identity elements the text presents seven tenets of CRPT alongside seven practical guidelines for utilizing the theory to combat the very inequalities it exposes For the first time a critical theory will address directly the social impacts of religious diversity and its inherent benefits and complications in the United States Critical Religious Pluralism in Higher Education will appeal to scholars researchers and graduate students in higher education as well as critical theorists from other disciplines      *Controversies in Interreligious Dialogue and the Theology of Religions* Paul Hedges, 2010 This latest volume in the Controversies in Contextual Theology series provides an introduction to the current state of the field for those new to interreligious dialogue and the theology of religions as well as providing insights and new concepts that will be of interest to specialists In particular the current deadlock between pluralist and particularist approaches is re imagined and a strong argument for radical openness to the religious Other is advanced based upon the resources of the Christian heritage The book draws inspiration from many sources including intercultural theology feminist theologies of religions comparative theology postcolonial identity theory scholarly debates on the nature of religion and biblical concepts of hospitality to outline its new approach It concludes that we must seek mutual fulfillment with religious Others while maintaining Christian integrity It also addresses the problems this involves when seeking ethical partnership across religious boundaries No easy answers are given however a vision for radical openness based on Jesus example the Christian heritage and contemporary scholarship is endorsed
