Christian Of Lists:

The Biblical Canon Lists from Early Christianity Edmon L. Gallagher, John D. Meade, 2017-10-26 The Bible took shape over the course of centuries and today Christian groups continue to disagree over details of its contents The differences among these groups typically involve the Old Testament as they mostly accept the same 27 book New Testament An essential avenue for understanding the development of the Bible are the many early lists of canonical books drawn up by Christians and occasionally Jews Despite the importance of these early lists of books they have remained relatively inaccessible This comprehensive volume redresses this unfortunate situation by presenting the early Christian canon lists all together in a single volume The canon lists in most cases unambiguously report what the compilers of the lists considered to belong to the biblical canon For this reason they bear an undeniable importance in the history of the Bible The Biblical Canon Lists from Early Christianity provides an accessible presentation of these early canon lists With a focus on the first four centuries the volume supplies the full text of the canon lists in English translation alongside the original text usually Greek or Latin occasionally Hebrew or Syriac Edmon L Gallagher and John D Meade orient readers to each list with brief introductions and helpful notes and they point readers to the most significant scholarly discussions The book begins with a substantial overview of the history of the biblical canon and an entire chapter is devoted to the evidence of biblical manuscripts from the first millennium This authoritative work is an indispensable guide for students and scholars of biblical studies and church history
