*The Christian-Muslim Frontier* Mario Apostolov, 2004-03-01 The Christian Muslim Frontier describes the historical formation of this zone and its contemporary dimensions geopolitical psychological economic and security Special attention is given to the concept of state frontiers to the effects of the uneven development of nation states and the contemporary interspersing of communities which creates new functional frontiers Further the frontier is described as a mental construction imagined by people in their search for social order individual and collective security Apostolov demonstrates that it is the political and economic situation of the local people that determines whether these frontiers result in conflict or cooperation Rather than imposing unilateral principles of good governance and to ensure cooperation prevails in Christian Muslim relations he argues that world society needs to undertake multilateral efforts to build participatory political institutions that accommodate groups with different identities Routledge Handbook on Christian-Muslim Relations David Thomas, 2017-08-16 The matter of Christian Muslim relations cannot be ignored these days While the term itself may not appear all that often relations between the two faiths and their reciprocal perceptions are undeniable influences behind many current conflicts declarations of mutual recognition and peace negotiations not to mention the brooding hatred of religious extremists Since 9 11 relations between the two faiths have in one form or another hardly been away from the news This Handbook contains fundamental information about the major aspects of relations between Christians and Muslims Its various sections follow the history from the early seventh century to the present the major religious issues that have led to disputes between the two faiths and the political implications of religious differences at various stages through history as well as in the present It includes analysis of scriptural and theological themes and explores the characteristics of relations at important points in history and also in various parts of the world today Chapters are devoted to the most significant intellectual interpretations and encounters the main armed clashes including the Crusades and the important documents issued by each faith that in recent years have led the way towards new developments in recognition and acceptance With chapters written by some of the foremost experts in the field the book traces the largely dark history of relations and explains the underlying reasons why Muslims and Christians have found tolerance and respect for the other difficult It is an excellent resource for understanding the past and for highlighting lessons for future relations between the world's two largest religions

Crossing Confessional Boundaries John Renard, 2020-01-28 Arguably the single most important element in Abrahamic cross confessional relations has been an ongoing mutual interest in perennial spiritual and ethical exemplars of one another's communities Ranging from Late Antiquity through the Middle Ages Crossing Confessional Boundaries explores the complex roles played by saints sages and Friends of God in the communal and intercommunal lives of Christians Muslims and Jews across the Mediterranean world from Spain and North Africa to the Middle East to the Balkans By examining these stories in their broad institutional social and cultural contexts Crossing Confessional Boundaries reveals unique theological insights
