**Christian Mysticism East and West** Maria Jaoudi,1998 Explores themes of transformation wholeness and healing as presented by both Eastern and Western mystics and how their ideas parallel the global insights found in Hinduism Taoism Islam and Buddhism     The Relevance of Bernard Lonergan's Notion of Self-appropriation to a Mystical-political Theology Ian B. Bell,2008 In The Relevance of Bernard Lonergan s Notion of Self Appropriation to a Mystical Political Theology Ian Bell takes on the issue of the separation of the interior and exterior lives that has come to dominate mystical theology over the years The mystical life he claims is necessarily involved in the establishment of social structures and institutions that govern human living and the work of Bernard Lonergan on the human subject provides a means by which the connection between the interior and exterior lives may be established Because human persons operate in a consistent pattern regardless of a given moment s particularities mystical experience is no longer relegated to so called spiritual matters and the insights of mystics may be applied to the Christian call to live as agents of love With this connection in place mystical theology and political theology come together in a theology that is both mystical and political     *The Living Church* ,1999     Self and No-Self Dale Mathers,Melvin E. Miller,Osamu Ando,2013-12-16 This collection explores the growing interface between Eastern and Western concepts of what it is to be human from analytical psychology psychoanalytic and Buddhist perspectives The relationship between these different approaches has been discussed for decades with each discipline inviting its followers to explore the depths of the psyche and confront the sometimes difficult psychological experiences that can emerge during any in depth exploration of mental processes Self and No Self considers topics discussed at the Self and No Self conference in Kyoto Japan in 2006 International experts from practical and theoretical backgrounds compare and contrast Buddhist and psychological traditions providing a fresh insight on the relationship between the two Areas covered include the concept of self Buddhist theory and practice psychotherapeutic theory and practice mysticism and spirituality myth and fairy tale This book explains how a Buddhist approach can be integrated into the clinical setting and will interest seasoned practitioners and theoreticians from analytical psychology psychoanalytic and Buddhist backgrounds as well as novices in these fields     **Bibliography on East Asian Religion and Philosophy** ,2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material     **Mindfulness as Sustainability** Maria Jaoudi,2021-02-01 The inundation of terrifying environmental news in recent years has left many people exhausted and in despair about our planet s future In Mindfulness as Sustainability Maria Jaoudi addresses the need to take care of ourselves intellectually spiritually and emotionally during the current global climate crisis Drawing on specific

teachings stories and explorations of consciousness and reality from Buddhist Christian Daoist Hindu Indigenous Islamic and Jewish traditions Jaoudi demonstrates that mindfulness is sustainability and that mindfulness practice applied both personally and politically can help mitigate global climate change and rectify environmental injustice Through illuminating discussions of primary scriptures key spiritual figures discoveries of modern science and moments of social transformation she offers practical ways to live our lives mindfully ethically and sustainably Written for students and lay readers the book makes the case that we can sustain our planet if we maintain our strength increase our knowledge and remain sensitive to the beauty and the sentience that is both within us and around us     *AAR/SBL Annual Meeting Program* American Academy of Religion.
