Christianity in a Revolutionary Age Kenneth Scott Latourette, 1961

**Christianity in Eurafrica** Steven

Pass, 2016-10-01 Christianity in Eurafrica is an impressive book meticulously researched and well written by a professional scholar. The first chapter includes some valuable historiographical guidelines for writing and understanding the History of the Church. In its first part, the book traces the history of the Church in the Middle East and Europe, explaining the roots of theological diversity to this day. In the second part, the author narrates how the Faith moved south, took root in African soil, and grew independently. Many pictures and illustrations serve to further enliven the account. Steven Paas taught Theology in Malawi for many years. He writes from a deep knowledge of and love for the Lord's Church, especially in Africa and Europe. This textbook on the history of Christianity in two continents fits with the curricula of institutions of theological training in Africa and the West. The content is especially aimed at students who prepare for the ministry and for Christian education. The book is, however, also invaluable for all scholars of the History of Christianity.

*The Twenty-five Unbelievable Years, 1945 to 1969* Ralph D. Winter, 1970 A commentary in essay form covering the period following K. S. Latourette's *A History of the Expansion of Christianity* published 1937-45.

*A Global Church History* Steven D. Cone, Robert F. Rea, 2019-09-05 How did the Christian Church originate? What journeys has it taken over two millennia, and how did it come to exist in its present myriad forms? The answers to these questions form a tapestry of history that reaches from first-century Palestine to the ends of the earth. This volume tells this rich story from an ecumenical perspective, drawing on both Eastern and Western historic sources in exploring the rise of Eastern Orthodoxy, the church across Asia, Africa, and the Americas, and the reformations of the Western Church, including the diversity of contemporary voices. The work benefits from many pedagogical features: boxed text sections identifying central figures and points of debate; study questions for each chapter; chapter summaries; maps; charts; index. Supplemented by over 400 illustrations, this book embraces the universality of historic and current Christianity, creating a single and comprehensive volume for students of Church history and systematic theology.
