## **Christianity Tragedy And Holocaust Literature:**

Christianity, Tragedy, and Holocaust Literature Michael R. Steele, 1995-07-24 Discusses the relationship or the lack of one between Holocaust literature and theories of tragedy and examines Christianity's influence on tragedy and tragic theory as well as the impact of Christianity on the reading of Holocaust literature Focuses especially on the incongruence between Western tragic literature and the literature of atrocity the Holocaust Delineates five key components of the theories of tragedy e.g. necessity destiny redemptive knowledge suffering innocence guilt human affirmation characteristics of the tragic hero and raises questions regarding their applicability to Holocaust literature focusing on works by Elie Wiesel Tadeusz Borowski Jerzy Kosinski and Rolf Hochhuth Notes that tragedy is an integral part of the West's cultural and philosophical history it is also imbued with Christian theological views of transcendence Christianity's claims regarding its supersession of Judaism helped prepare the conditions that were necessary for Jews to become the victims of the Nazis Therefore Christians must reassess their theological views in order to confront the Holocaust and its literature

*Christianity, The Other, and The Holocaust* Michael R. Steele, 2003-02-28 According to the author Christianity offers a powerful system of rewards and incentives to create cultural uniformity Those who do not join in this cultural uniformity become anathematized oppressed marginalized and ultimately removed from the Christian circle of moral obligation Using culture studies as a framework for analysis Steele investigates the ways in which Christianity created cultural conditions based on a theology of violence and the use of sacred violence to foster behaviors that would lead to the involvement of millions of perpetrators and bystanders during the many instances of extreme violence used against the Other over the centuries As the original Disconfirming Other in the Christian cultural world Jews often served as the primary target Thus there was a system of definitions rewards incentives and victims already in place when the Nazis came to power Calling for a re-evaluation of the cultural practices and values that have developed within Christianity over time this important new book helps account for the phenomenon of the Nazi perpetrators and bystanders during the Holocaust Framing the Holocaust as a late but logical development in a long series of violent responses by Christianity to the Other those who stand outside the Christian world either by geographical accident religious tradition or some other factor the author attempts to show how the Holocaust while not a specifically Christian event was nevertheless sanctioned and conditioned by other events in the history of Christianity Using culture studies to frame his analysis Steele focuses on historical antecedents that help account for the apathy of bystanders and point to the preexistence of a moral framework supporting and empowering the perpetrators of the Holocaust This unique perspective concludes that the Nazis invented almost nothing with regard to the Shoah and that instead a long standing insistence on cultural hegemony played a much bigger role in the attempted destruction of the Jewish community

**Amidst Mass Atrocity and the Rubble of Theology** Peter Admirand, 2012-03-16 It is hubris to claim answers to unanswerable questions Such questions however as part of their burden and worth must still be asked investigated and contemplated How

there can be a loving all powerful God and a world stymied by suffering and evil is one of the unanswerable questions we must all struggle to answer even as our responses are closer to gasps silences and further questions More importantly how and whether one articulates a response will have deep lasting repercussions for any belief in God and in our judgments upon one another Throughout this wide ranging interdisciplinary work Peter Admirand draws upon his extensive research and background in theology and testimonial literature trauma and genocide studies cultural studies philosophy of religion interreligious studies and systematic theology As David Burrell writes in the Foreword T he work s intricate structure organization and development will lead us to appreciate that the best one can settle for is a fractured faith built on a fractured theodicy expressed in a language explicitly fragmented pluralist and broken     [Reference Guide to Holocaust Literature](#) Thomas Riggs,2002 Covering the entire spectrum of the literature of the Holocaust era from the beginnings of Nazism through the concentration camp experience survivor syndrome and second generation response this detailed survey includes entries on more than 200 authors and 300 works Author entries include detailed biographical information as well as expert analytical interpretation Work entries discuss each work in detail and include a critical essay written by an expert in the field Value added features include chronologies further reading lists and nationality concentration camp and title indexes

[Living in the Shadow of the Cross](#) Paul Kivel,2013-10-01 How our dominant Christian worldview shapes everything from personal behavior to public policy and what to do about it Over the centuries Christianity has accomplished much which is deserving of praise Its institutions have fed the hungry sheltered the homeless and advocated for the poor Christian faith has sustained people through crisis and inspired many to work for social justice Yet although the word Christian connotes the epitome of goodness the actual story is much more complex Over the last two millennia ruling elites have used Christian institutions and values to control those less privileged throughout the world The doctrine of Christianity has been interpreted to justify the killing of millions and its leaders have used their faith to sanction participation in colonialism slavery and genocide In the Western world Christian influence has inspired legislators to continue to limit women s reproductive rights and has kept lesbians and gays on the margins of society As our triple crises of war financial meltdown and environmental destruction intensify it is imperative that we dig beneath the surface of Christianity s benign reputation to examine its contribution to our social problems Living in the Shadow of the Cross reveals the ongoing everyday impact of Christian power and privilege on our beliefs behaviors and public policy and emphasizes the potential for people to come together to resist domination and build and sustain communities of justice and peace Paul Kivel is the award winning author of Uprooting Racism and the director of the Christian Hegemony Project He is a social justice activist and educator who has focused on the issues of violence prevention oppression and social justice for over forty five years     [Religion at Ground Zero](#) Christopher Craig Brittain,2011-07-14 The world will never be the same How many times have human beings uttered this cry after a tragic event This book analyzes how such emotive reactions impact on the way religion is understood
