Christianizing Kinship Ritual Sponsorship In Anglo Saxon England

Matthew Townend

Christianizing Kinship Ritual Sponsorship In Anglo Saxon England:

Christianizing Kinship Joseph H. Lynch, 2018-09-05 When Christianity spread from its Mediterranean base into the Germanic and Celtic north it initiated profound changes particularly in kinship relations and sexual mores Joseph H Lynch traces the introduction and assimilation of the concept of spiritual kinship into Anglo Saxon England Covering the years 597 to 1066 he shows how this notion unsettled and in time altered the structures of the society In early Germanic societies kinship was a major organizing principle Spiritual kinship of various kinds began to take hold among the Anglo Saxons with the arrival of Christian missionaries from Rome in the seventh century Lynch discusses in detail sponsorship at baptism confirmation and other rituals in which an individual other than a biological parent presented someone often an infant for initiation into Christianity After the ceremony the sponsor was regarded as the child s spiritual parent or godparent whose role complemented that of the natural mother and father with whom the sponsor had become a coparent He describes the difficulties posed by the incest taboo which included a ban on marriage between spiritual kin Lynch s work reveals how Anglo Saxons though never accepting the sexual taboos that were so prominent in the Frankish Roman and Byzantine churches did create new forms of spiritual kinship Unusual in its focus and scope this book illuminates an integral element in the religious social and diplomatic life of Anglo Saxon England It also contributes to our understanding of the ways in which Christianization reshaped societal relations and moral attitudes *Early and Medieval Rituals and Theologies of Baptism* Bryan D. Spinks, 2006 In this first of two volumes Bryan Spinks summarizes the understandings of baptism in the New Testament and the development of baptismal reflection and liturgical rites throughout Syrian Egyptian Roman and African regions He focuses particularly on the Homilies of Chrysostom Cyril of Jerusalem Theodore and Ambrose the post nicene rites and commentaries and the impact of medieval theologies of baptism and Augustinian theology with reference to Western understanding **AEthelstan** Sarah Foot, 2011-07-12 The powerful and innovative King AEthelstan reigned only briefly 924 939 yet his achievements during those eventful fifteen years changed the course of English history He won spectacular military victories most notably at Brunanburh forged unprecedented political connections across Europe and succeeded in creating the first unified kingdom of the English To claim for him the title of first English monarch is no exaggeration In this nuanced portrait of AEthelstan Sarah Foot offers the first full account of the king ever written She traces his life through the various spheres in which he lived and worked beginning with the intimate context of his family then extending outward to his unusual multiethnic royal court the Church and his kingdom the wars he conducted and finally his death and legacy Foot describes a sophisticated man who was not only a great military leader but also a worthy king He governed brilliantly developed creative ways to project his image as a ruler and devised strategic marriage treaties and gift exchanges to cement alliances with the leading royal and ducal houses of Europe AEthelstan s legacy seen in the new light of this masterful biography is inextricably connected to the very forging of England and early English identity **Danes in**

Wessex Ryan Lavelle, Simon Roffey, 2015-11-30 There have been many studies of the Scandinavians in Britain but this is the first collection of essays to be devoted solely to their engagement with Wessex New work on the early Middle Ages not least the excavations of mass graves associated with the Viking Age in Dorset and Oxford drew attention to the gaps in our understanding of the wider impact of Scandinavians in areas of Britain not traditionally associated with them Here a multidisciplinary and interdisciplinary approach to the problems of their study is presented While there may not have been the same degree of impact discernible particularly in place names and archaeology as in those areas of Britain which had substantial influxes of Scandinavian settlers Wessex was a major theater of the Viking wars in the reigns of Alfred and thelred Unr d Two major topics the Viking wars and the Danish landowning elite figure strongly in this collection but are shown not to be the sole reasons for the presence of Danes or items associated with them in Wessex Multidisciplinary approaches evoke Vikings and Danes not just through the written record but through their impact on real and imaginary landscapes and via the objects they owned or produced The papers raise wider questions too such as when did aggressive Vikings morph into more acceptable Danes and what issues of identity were there for natives and incomers in a province whose founders were believed to have also come from North Sea areas if not from parts of Denmark itself Readers can continue for themselves aspects of these broader debates that will be stimulated by this fascinating and significant series of studies by both established scholars and new researchers

Penda, Mercia's First King Paul Barrett, 2024-07-30 Since the Venerable Bede wrote his iconic Ecclesiastical History of England in the eighth century King Penda has been relegated to the role of villain and treated as a barrier to advancement in a battle between new ideas and a new culture Paul Barrett outlines the background to the Anglo Saxon takeover in England and explores the broad concepts of the Angles traditional culture before delving into the life of Penda 605 655 Penda s life spanned the first half of the seventh century the era which gave birth to national identities which still form the central components of modern Britain Wales Scotland and England all take shape through this period Penda s seemingly impossible ascent to prominence starts on the very periphery of power and ends with the dominance of Britain He is at the centre of Mercia s birth expansion and rise Throughout his reign his kingdom becomes a bastion of stability in a period of endemic warfare climate change challenges cultural competition and unstable nation to nation relationships Throughout his life Penda challenges the status quo and shows the value of cultural pluralism in a time when the growing power of a new faith Christianity was pushing all others into extinction Guided by his loyalty to an ancient culture service to his family and his powerful Queen Cynewise Penda launched Mercia towards eventual supremacy which would last for over 200 years He was the last of the great Anglo Saxon heathen warlords

Medieval Hostageship c.700-c.1500 Matthew Bennett, Katherine Weikert, 2016-09-13 This volume explores the issues of taking using and being hostages in the Middle Ages It brings together recent research in the areas of hostages and hostageships looking at the act of hostage taking and the hostages themselves through the lenses of political and social history Building upon

previous work this volume in particular critically examines not only the situations of hostages and hostageships but also the broader social and political context of each situation developing a more complete picture of the phenomenon

Europe after Rome Julia M. H. Smith, 2005-09-08 This is the first single author study in over fifty years to offer an integrated appraisal of the early Middle Ages as a dynamic and formative period in European history Written in an attractive and accessible style it makes extensive use of original sources to introduce early medieval men and women at all levels of society from slave to emperor and allows them to speak to the reader in their own words It overturns traditional narratives and instead offers an entirely fresh approach to the centuries from c 500 to c 1000 Rejecting any notion of a dominant uniform early medieval culture it argues that the fundamental characteristic of the early middle ages is diversity of experience To explain how the men and women who lived in this period ordered their world in cultural social and political terms it employs an innovative methodology combining cultural history regional studies and gender history Ranging comparatively from Ireland to Hungary and from Scotland and Scandinavia to Spain and Italy the analysis highlights three themes regional variation power and the legacy of Rome The book's eight chapters examine the following subjects Speaking and Writing Living and Dying Friends and Relations Men and Women Labour and Lordship Getting and Giving Kingship and Christianity Rome and the Peoples of Europe Collectively they establish the complex cultural realities which distinguished Europe in the period between the end of the central institutions of the western Roman empire in the fifth century and the emergence of a Rome centred papal monarchy from the late eleventh century onwards In the context of debates about the social religious and cultural meaning of Europe in the early twenty first century this book seeks the origins of European cultural pluralism and diversity in the early Middle Ages

Kinship Structures and Foster Relations in Islamic Society Balkrishan Shivram, 2014

Understanding Medieval Liturgy Helen Gittos, Sarah Hamilton, 2017-05-15 This book provides an introduction to current work and new directions in the study of medieval liturgy It focuses primarily on so called occasional rituals such as burial church consecration exorcism and excommunication rather than on the Mass and Office Recent research on such rites challenges many established ideas especially about the extent to which they differed from place to place and over time and how the surviving evidence should be interpreted These essays are designed to offer guidance about current thinking especially for those who are new to the subject want to know more about it or wish to conduct research on liturgical topics Bringing together scholars working in different disciplines history literature architectural history musicology and theology time periods from the ninth to the fifteenth centuries and intellectual traditions this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages It includes essays that discuss the practicalities of researching liturgical rituals show through case studies the problems caused by over reliance on modern editions explore the range of sources for particular ceremonies and the sort of questions which can be asked of them and go beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period

Aldhelm and Sherborne Katherine Barker, Nicholas Brooks, 2010 This collection of papers follows on from a conference held in Sherborne in June 2005 marking the thirteen hundredth anniversary of the founding of the bishopric by Aldhelm of Malmesbury This volume looks at the work of Aldhelm and the foundation of the see of Sherborne in the wider context of his career and his world At the Sherborne symposium Katherine Barker commissioned a performance of Aldhelm's *Carmen rhythmicum* by a rune singer and an instrumentalist The large audience at Sherborne were transfixed by the experience of listening with the text and a translation before them to a musical recitation and performance of this long Latin poem which perhaps for the first time in a thousand years conveyed something of its emotional power The rhythms and message of Aldhelm's poem came alive in a remarkable way and readers of this volume can gain much of the same experience by listening to the accompanying CD with the text and translation of the *Carmen rhythmicum* before them *Infant Baptism in Reformation Geneva* Karen E. Spierling, 2009-01-27 This book examines beliefs practices and arguments surrounding infant baptism in Geneva during the time of John Calvin Karen Spierling studies several facets of Calvin's theology of baptism including its impact on the formation of community its doctrine and liturgy its role in the raising of children and the parts played by parents ministers godparents and midwives in the practice of baptism This book also highlights some of the controversies surrounding baptism in the sixteenth century most notably the tension between Calvin's theology of baptism and that of the Roman Catholic Church **A Child's Place in the Community** Karen Elene Spierling, 2001 **Wulfstan, Archbishop of York** Matthew Townend, 2004 No further information has been provided for this title Royal Historical Society Annual Bibliography of British and Irish History: Publications of 1998 Austin Gee, 1999-10-28 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians *Old English Newsletter*, 1998 **Byrhtferth of Ramsey** Byrhtferth, 2009 Byrhtferth of Ramsey was one of the most learned scholars of late Anglo Saxon England and his two saints Lives of Oswald a powerful bishop of Worcester and York in the tenth century d 992 and Ecgbwine the seventh century founder of Evesham are among the most important historical sources for our understanding of late Anglo Saxon England The Life of St Oswald is the longest surviving work of Anglo Saxon hagiography and it is the principal source for much of our knowledge of tenth century England especially the monastic reform movement the role of King Edgar the murder of Edward king and Martyr and the so called anti monastic reaction of which he is the unique witness Much less is known about St Ecgbwine both by us and by Byrhtferth but Byrhtferth's writing has exceptional value once again for the light it throws on tenth century monasticism and the role of King Edgar in this process Both Lives have been printed only once before in the nineteenth century in editions which are riddled with errors and which have misled scholarship for over a

century Neither work has ever been translated into English The present edition includes facing page translations which will make these works accessible to a scholarly audience for the first time Byrhtferth's Latin is unusually idiosyncratic and difficult and was frequently misunderstood by the scribe who copied the unique manuscript in which the Lives are preserved The texts are also accompanied by extensive notes which explain the historical implications and the often impenetrable Latin One of the principal features of the new edition is that corruption in the transmitted text has been emended where necessary based on knowledge of Byrhtferth's Latin style analysed for example in the EETS edition of Byrhtferth's Enchiridion ed Lapidge and Baker in 1994 A new edition of Byrhtferth's two saints Lives has been long awaited and will be indispensable to the study of Anglo Saxon history and literature the texts also throw considerable new light on the archaeology of Anglo Saxon ecclesiastical sites such as York Worcester Ramsey and Evesham
