## **Christology And Spirituality:**

**Christology and Spirituality** William Thompson-Uberuaga, 1991      **Christian Spirituality** Alister E. McGrath, 2013-05-30 This text fills the need for a clear informative helpful and well written introduction to Christian spirituality Includes a detailed guide to resources in spirituality available on the Internet Written by a leading theological educationalist in a clear and accessible manner Encourages active engagement with primary sources through worked case studies      Christ In Evolution Ilia Delio, 2010      Christ in All Things King, Ursula, 2016-11-17 Offering both a concise introduction to the spiritual vision of the mystic and scientist Pierre Teilhard de Chardin and a fascinating survey of contemporary themes in spirituality through a Teilhardian lens this revised edition shows how Teilhard's perception of Christ in all things was the key to his holistic vision      A Taste of God T. van den Hoogen, 2011 In the course of the 20th century a new worldview has arisen in Western society and culture that is defined in this book as immanent mysticism Several major philosophers are sensitive to such a sense of immanent mysticism The same sensitivity is noticeable in the works of poets painters and other artists It expresses the desire for transforming the way to meaningful living A Taste of God shows that theological research programs are innovated by insights from aesthetics and studies of spirituality The book's research indicates that contemporary Western culture requires a reframing of foundational theology Series Nijmegen Studies in Theology Vol 3      Explorations in Spirituality Philip Sheldrake, 2010 A distinctive exposition of the main elements of the study of Christian spirituality that also underlines the essentially socially transformative nature of the Christian spiritual tradition      **Christology from Within** Mark Allen McIntosh, 1996 Mark McIntosh's examination of the unique christological thought of twentieth century theologian Hans Urs von Balthasar provides a valuable example of how christology and spirituality can come together to offer a more humanistic idea of Christ      Gazing on His Face Ryan, Robin, CP, 2020 Reflects on some traditional christological titles using them as windows through which to gaze on the inexhaustible mystery of the crucified and risen Jesus Each window provides some insight into a dimension of the person of Jesus and his life giving action in our lives      *The Blackwell Companion to Christian Spirituality* Arthur Holder, 2011-04-27 The Blackwell Companion to Christian Spirituality is a comprehensive single volume introduction to Christian spirituality and represents the most significant recent developments in the field Offers a thoroughly interdisciplinary broadly ecumenical and representative overview of the most significant recent developments in the field Comprises essays combining rigorous academic scholarship with accessible and elegant writing Reflects an understanding of the field as the study of the lived experience of Christian faith and discipleship Provides material on biblical historical and theological foundations along with treatment of contemporary issues      **The Emergent Christ** Ilia Delio, 2011 Ilia Delio makes fascinating sense of the universe beginning with the story of cosmic evolution coursing through the meaning of God in evolution and the emergence of Christ and concluding with new ways of seeing Christ in all things As Teilhard de Chardin did in *The Divine Milieu* Ilia Delio reveals the

sacrament of God at work in the world She also explores the spiritual evolution within each of us and suggests that it will change the cosmos as well as the church She shows that we are at a stage in evolution where our choices will determine what happens next Love she writes always seeks the best for the beloved but God is a beggar of love who waits at the soul's door without daring to force it open The question of Christ emerging as the personal center of the universe is not a question of yes or no but a question of how that love will evolve She makes one thing perfectly clear it is happening and the evidence is astounding The Emergent Christ is an antidote to the new atheism that says there is no place in evolution for God let alone a God of love It is also a spiritual tonic for Christians interested in understanding their place and purpose in this evolving universe

**The Merging of Theology and Spirituality** Larry S. McDonald, 2006-07-29 While acknowledging the inherent tension between evangelicals who emphasize theological propositions and those who emphasize personal experience Alister McGrath believes that spirituality represents the interface between ideas and life between Christian theology and human existence The book explores the centrality of McGrath's theology in the development of his views on spirituality McGrath does not approach spirituality from a theological void but instead uses his theological perspective as the foundation Through detailed examination of McGrath's previous work and the writing of other evangelicals *The Merging of Theology and Spirituality* offers an overview of a unique thinker's contributions and a guide for future theological and spiritual exploration

Spirituality Seeking Theology Roger Haight, 2014 Many religious seekers in our time do not understand church doctrines or fail to see the bearing of such doctrines on their immediate lives For such people Christian spirituality can offer a more pertinent and fulfilling avenue toward faith In treating the Christian story of creation the life of Jesus the history of the church eschatology and more Roger Haight suggests ways in which spirituality the cultivation of a relationship with the

transcendent can lead spiritual seekers to open ended questions of theology Book jacket **Divine Teaching** Mark A. McIntosh, 2017-09-05 This innovative work is an introduction to Christian theology with a difference Not only does it interpret with clarity and energy fundamental Christian beliefs but it also shows how and why these beliefs arose promoting an understanding of theological reflection that encourages readers to think theologically themselves From Irenaeus and Aquinas to Girard from Augustine to Zizioulas and contemporary feminist thought Divine Teaching explores the ways in which major thinkers in the Christian tradition have shaped theology through the wide variety of their encounters with God It makes theological study adventurous and interactive not necessarily requiring a faith commitment from all but allowing readers a thoughtful involvement in the subject that takes seriously the Christian vision of God as the ultimate teacher of theology Divine Teaching An Introduction to Christian Theology is an imaginative and lively analysis of the Christian way of thinking offering vivid and informing insight into the history and practice of Christian theology **Becoming Good, Becoming Holy** Mark O'Keefe, 2005-05-31 This is a long awaited and needed book about the mutual relationship between moral theology and spirituality in the past at the present time and with hope for the future It is a gentle and convincing book both in its tone and in its arguments It is in the best sense a scientific book and at the same time an existential text It appeals to mind and heart This is a most useful book for every Christian striving to become ever more a discerning person aiming at integration of prayer and life Books like this strengthen my unbroken optimism about the ongoing renewal of Christian ethics and Christian spirituality Bernhard Haering Gars Germany In Becoming Good Becoming Holy Mark O Keefe makes a valuable contribution to our understanding of the Christian life in its wholeness and integrity By connecting love and justice prayer discernment and moral decision making fundamental option and spiritual growth he challenges unhelpful divisions between Christian ethics and spirituality His vision of conversion and of the Christian life as a dynamic totality will appeal to a wide range of readers Elizabeth Dreyer Washington Theological Union Clearly written and insightful Becoming Good Becoming Holy is a convincing response to the Second Vatican Council s call to renew Catholic moral theology by centering it on our life in Christ Best of all O Keefe underscores both the pivotal connection between Eucharist and morality and the integral role of prayer and discernment in Christian moral decision making Paul Wadell Catholic Theological Union Mark O Keefe OSB is Associate Professor of Moral Theology at St Meinrad School of Theology and a Benedictine monk at St Meinrad Archabbey He is the author of What Are They Saying About Social Sin and his articles have appeared in New Theology Review Irish Theological Quarterly New Blackfriars Eglise et Theologie and other theological journals Christ and Spirituality in St. Thomas Aquinas Jean-Pierre Torrell, 2011-11-14 St Thomas Aquinas s holiness did not flower alongside his endeavor as a theologian or in isolation from it Rather it was a fruit of his practice of theology and the asceticism proper to magnanimous souls who dare to examine the mystery of God Theological affectivity charity present through a living faith is necessary for an authentic practice of theology The experience of God which is essential to the mystical life is at the heart of

Aquinas's study and life The studies in this volume investigate themes of particular spiritual relevance in Aquinas's theology: friendship, charity, prayer, configuration to Christ, priesthood, preaching. They also reveal Aquinas's entire approach to theology to be guided by the desire to grow spiritually through theologizing. The Angelic Doctor here appears as a Dominican friar whose theology flows from his faith and prayer. Desiring to underscore the Trinitarian character of the Christian life, Aquinas pays careful attention to the human being as created in the image of God. In this light, Aquinas presents Christ as the Exemplar after which we are fashioned and as the model we are to imitate. Christ thus appears in the *Summa* not only as the way by which the human being must travel toward God but also as the head who leads the rational creature's return to the Creator.

**ABOUT THE AUTHOR AND TRANSLATOR** Jean Pierre Torrell is a Dominican priest of the Toulouse province and professor of dogmatic theology at the University of Fribourg. He is the author of the highly praised *Saint Thomas Aquinas* volumes Volume 1 *The Person and His Work* and Volume 2 *Spiritual Master* as well as Aquinas's *Summa* published by CUA Press. Bernhard Blankenhorn, O.P., is a doctoral student in theology at the University of Fribourg, Switzerland.

**Christ Plays in Ten Thousand Places** Eugene H. Peterson, 2008-01-29 Lamenting the vacuous, often pagan nature of contemporary American spirituality, Peterson firmly grounds spirituality once more in Trinitarian theology and offers a clear, practical statement of what it means to actually live out the Christian life.

*Theology, Disability, and Spiritual Transformation* Michael Hryniuk, 2010 In this study, Michael Hryniuk develops a full phenomenological, psychological, and theological account of spiritual transformation in the context of L'Arche, a federation of Christian communities that welcome persons with learning disabilities. The book begins with a critical examination of current perspectives on spiritual transformation in theology and Christian spirituality and constructs a new foundational formulation of transformation as a shift in consciousness, identity, and behavior. Through extensive analysis of the narratives of the caregiver assistants who share life with those who are disabled, this case study reveals an alternative vision of the three-fold way that unfolds through a series of profound awakenings in relationships of mutual care and presence: an awakening to the capacity to love, to bear inner anguish and darkness, and to experience radical human and divine acceptance. The book examines the psychological dimensions of spiritual transformation through the lens of contemporary affect theory and explores how caregivers experience a profound healing of shame in their felt sense of identity and self-worth.

**The Merging of Theology and Spirituality** Larry S. McDonald, 2006-07-29 While acknowledging the inherent tension between evangelicals who emphasize theological propositions and those who emphasize personal experience, Alister McGrath believes that spirituality represents the interface between ideas and life, between Christian theology and human existence. The book explores the centrality of McGrath's theology in the development of his views on spirituality. McGrath does not approach spirituality from a theological void but instead uses his theological perspective as the foundation. Through detailed examination of McGrath's previous work and the writing of other evangelicals, *The Merging of Theology and Spirituality* offers an overview of a unique thinker's contributions.
