Career Services and Workforce Development Centers for Libraries Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18 With the rise of unemployment, increased career growth opportunities, and changing workforce demographics, libraries can support job seekers in several ways. Career Services and Workforce Development Center for Libraries: A Guide serves as a resource for libraries interested in creating, supporting, or enhancing their career services, economic, and workforce development programs for their communities. Going beyond collection development and hosting job fair activities, the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations. Ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities, programs, and services show academic and public librarians can support their users exploring career opportunities and development. Examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities. How can one start a career services or job center program in their libraries? What are specialized career services in libraries being offered? How can libraries advocate for funding for workforce development? Divided into five chapters, each chapter addresses these questions and provides a series of examples, ideas, and resources for readers to consider replicating in their own libraries. If you are looking for ideas for your libraries to support a community of job seekers, this is the book for you.

The Invisible Brand: Marketing in the Age of Automation, Big Data, and Machine Learning William Ammerman, 2019-05-24 Marketers are harnessing the enormous power of AI to drive unprecedented results. The world of marketing is undergoing major change. Sophisticated algorithms can test billions of marketing messages and measure results and shift the weight of campaigns all in real time. What's next? A complete transformation of marketing as we know it where machines themselves design and implement customized advertising tactics at virtually every point of digital contact. The Invisible Brand provides an in-depth exploration of the risks and rewards of this epochal shift while delivering the information and insight you need to stay ahead of the game. Renowned technologist William Ammerman draws from his decades of experience at the forefront of digital marketing to provide a roadmap to our data-driven future. You'll learn how data and AI will forge a new level of persuasiveness and influence for reshaping consumers' buying decisions. You'll understand the technology behind these changes and see how it is already at work in digital assistants, recommendation engines, and digital advertising. And you'll find unmatched insight into how to harness the power of artificial intelligence for maximum results. As we enter the age of mass customization, messaging power and influence will go to those who know the consumer best. Whether you are a marketing executive or concerned citizen, The Invisible Brand provides everything you need to understand how brands are harnessing
