Important to Us Richard Hardack, 2023-05-15 In a unique exploration of how corporations appropriate the rights and identities of people Richard Hardack unearths the unexpected consequences of corporate America's quest to dominate every aspect of our culture Not only do corporations govern our economy but corporate personas define our identities and shape our relationships with people and the world around us In a timely and wide ranging study Hardack recontextualizes the inordinate influence of corporations and corporate advertising as a legal political psychological and sociological phenomenon He connects a surprising array of topics including advertising pop culture representations of nature science fiction legal history the history of colonization and slavery and the longing to transcend individuality to show how the principles of corporate personhood the idea that corporations are people allow corporations to impersonate and displace actual people Throughout Hardack also provides a novel reassessment of the pernicious role and effect of advertising in our daily lives The book makes accessible a complex topic and integrates many pressing issues in the U.S. including the privatization of the public sphere the escalating polarization of wealth and rights unchecked corporate power influence and monopoly and the descent of political debate and policy into the language of advertising branding and entertainment Hardack treats the assumptions that foster corporate personhood as both cause and effect driver and symptom of a series of transformations in U.S. society Awakened to this foundational way corporations infiltrate most human activities and interactions readers can better understand and safeguard themselves against systemic changes to the American economy culture and politics
