Shubham Mahajan,Kapil Joshi,Amit Kant Pandit,Nitish Pathak,2024-08-01 A comprehensive book providing high quality research addressing challenges in theoretical and application aspects of soft computing and machine learning in image processing and computer vision Researchers are working to create new algorithms that combine the methods provided by CI approaches to solve the problems of image processing and computer vision such as image size noise illumination and security The 19 chapters in this book examine computational intelligence CI approaches as alternative solutions for automatic computer vision and image processing systems in a wide range of applications using machine learning and soft computing Applications highlighted in the book include diagnostic and therapeutic techniques for ischemic stroke object detection tracking face detection and recognition computational based strategies for drug repositioning and improving performance with feature selection extraction and learning methods capable of retrieving photometric and geometric transformed images concepts of trading the cryptocurrency market based on smart price action strategies comparative evaluation and prediction of exoplanets using machine learning methods the risk of using failure rate with the help of MTTF and MTBF to calculate reliability a detailed description of various techniques using edge detection algorithms machine learning in smart houses the strengths and limitations of swarm intelligence and computation how to use bidirectional LSTM for heart arrhythmia detection a comprehensive study of content based image retrieval techniques for feature extraction machine learning approaches to understanding angiogenesis handwritten image enhancement based on neutrosophic fuzzy Audience The book

has been designed for researchers engineers graduate and post graduate students wanting to learn more about the theoretical and application aspects of soft computing and machine learning in image processing and computer vision

Digital Access and Museums as Platforms Caroline Wilson-Barnao,2021-07-25 Digital Access and Museums as Platforms draws on interviews with museum practitioners along with a range of case studies from public and private institutions in order to investigate the tensions and benefits involved in making cultural collections available using digital technologies Taking a media and critical studies approach to the museum and raising questions about the role of privately owned search engines in facilitating museum experiences the book questions who collects what for whom objects are collected and what purpose these objects and collections serve Connecting fieldwork undertaken in Australia and New Zealand with the global practices of technology companies Wilson Barnao brings attention to an emerging new model of digital ownership and moderation Considering the synergising of these institutions with media systems which are now playing a more prominent role in facilitating access to culture the book also explores the motivations of different cultural workers for constructing the museum as a mediatised location Digital Access and Museums as Platforms will be of interest to academics and students working in the fields of museum studies art culture media studies and digital humanities Weighing in on conversations about how technologies are being incorporated into museums the book should also be useful to practitioners working in museums and galleries around the world

Paleo Approach Tessa Kwan,AI,2025-03-15 Paleo Approach explores the Paleolithic diet advocating for a return to ancestral nutrition by emphasizing whole foods like lean proteins fruits and vegetables while excluding grains legumes and refined sugars The book argues that aligning our diets with our evolutionary past may optimize health and reduce the risk of chronic diseases For example modern hunter gatherer societies whose diets mirror paleo principles often exhibit better health markers compared to those consuming Western diets This approach isn t just about weight loss it s a holistic view of wellness rooted in evolutionary biology The book uniquely bridges the gap between scientific rationale and practical application It delves into the historical context and scientific underpinnings of the paleo diet examining specific food groups and their impact on health Furthermore it provides actionable guidance on meal planning grocery shopping and cooking easing the transition to a paleo lifestyle It acknowledges ongoing debates about potential drawbacks presenting controversies objectively so readers can make informed decisions The book progresses logically starting with fundamental concepts and historical context then moving into specific food groups and practical implementation strategies It connects nutrition with anthropology evolutionary biology and psychology offering a comprehensive understanding of the paleo diet s potential and limitations
