Transforming Academic Libraries Rajesh Singh, Shiva Kanaujia Sukula, 2025-07-25 The book comprises the proceedings of the International Conference on Academic Libraries ICAL 2023 in the context of developing a vision for the next generation of libraries which will contribute to nation building and give a competitive edge to the country in becoming a knowledge economy The book provides a quality reading and exchange of ideas to all stakeholders to deliberate dwell and brainstorm upon the diverse and enormous role that academic libraries may play in enhancing the higher education

landscape in developed and developing countries with particular reference to India by 2030 The book includes literature and opportunities to identify the strengths and gaps in the academic library system and to suggest new management models mechanisms policies and national and international programs for reshaping academic libraries into next generation libraries for higher education

Data Insight Foundations Nikita Tkachenko, 2025-04-15 This book is not a comprehensive guide if that's what you're seeking you may want to look elsewhere Instead it serves as a map outlining the necessary tools and topics for your research journey The goal is to build your intuition and provide pointers for where to find more detailed information The chapters are deliberately concise and to the point aiming to expose and enlighten rather than bore you While examples are primarily in R a basic understanding of the language is advantageous but not essential Several chapters especially those focusing on theory require no programming knowledge at all Parts of this book have proven useful to a diverse audience including web developers mathematicians data analysts and economists making the material beneficial regardless of one's background The structure allows for flexible reading paths you may explore the chapters in sequence for a systematic learning experience or navigate directly to the topics most relevant to you

What You Will Learn Data Management Master the end to end process of data collection processing validation and imputation using R Reproducible Research Understand fundamental theories and achieve transparency with literate programming *renv* and Git Academic Writing Conduct scientific literature reviews and write structured papers and reports with Quarto Survey Design Design well structured surveys and manage data collection effectively Data Visualization Understand data visualization theory and create well designed and captivating graphics using *ggplot2*

Who this Book is For Career professionals such as research and data analysts transitioning from academia to a professional setting where production quality significantly impacts career progression Some familiarity with data analytics processes and an interest in learning R or Python are ideal
