Play T. L. Taylor,2018-10-16 A look at the revolution in game live streaming and esports broadcasting Every day thousands of people broadcast their gaming live to audiences over the internet using popular sites such as Twitch which reaches more than one hundred million viewers a month In these new platforms for interactive entertainment big esports events featuring digital game competitors live stream globally and audiences can interact with broadcasters and each other through chat in real time What are the ramifications of this exploding online industry Taking readers inside home studios and backstage at large esports events Watch Me Play investigates the rise of game live streaming and how it is poised to alter how we

understand media and audiences Through extensive interviews and immersion in this gaming scene T L Taylor delves into the inner workings of the live streaming platform Twitch From branding to business practices she shows the pleasures and work involved in this broadcasting activity as well as the management and governance of game live streaming and its hosting communities At a time when gaming is being reinvented through social media the potential of an ever growing audience is transforming user generated content and alternative distribution methods These changes will challenge the meaning of ownership and intellectual property and open the way to new forms of creativity The first book to explore the online phenomenon Twitch and live streaming games Watch Me Play offers a vibrant look at the melding of private play and public entertainment

Universities and Regions Michael Shattock, Aniko Horvath, 2023-04-06 This book explores the impact of localities and regions on universities and shows how the diversity of the higher education landscape is critically affected by the geophysical character of regions and their differentiated economies and cultures regional inequalities bear heavily on universities strategy making A study of the interrelationship between higher and further education argues that from a regional perspective a change to a tertiary education system in England following Wales would create the conditions for better local and regional coordination Universities make a significant contribution to levelling up through technology transfer and the creation of innovation hubs but the contribution of locally or regionally based students who on graduation return to disadvantaged communities rather than seek employment elsewhere should be recognised also as a longer term step to redressing regional inequality The book argues strongly that the time has come to decentralise the governance of a re aligned tertiary system to regions and identifies the move to create metro mayors and combined authorities as providing the appropriate vehicle to release new initiative from regional sources It cites the success of decentralisation to Scotland and Wales as offering relevant models for scrutiny The authors draw on 12 UK widely differentiated university case studies a survey of further education and a study of three continental European comparators Germany Ireland and Norway to develop the argument
