shaping the future of learning research and innovation Prof Ibiyinka OGUNLADE Deputy Vice Chancellor Academic Ekiti State University Ado Ekiti 2014 2016 _____ A rich and elegant multidisciplinary collection of essays that explores the transformative potential of education science and technology in shaping Nigeria's future The book delves into the challenges and opportunities presented by the evolving educational landscape the critical role of science and technology in national development and strategies for bridging gaps in access quality and innovation It further analyzes how digital tools and platforms can revolutionize learning experiences and improve access to quality education Most significantly this book is laced with insightful recommendations for policymakers educators researchers and anyone interested in the development of Nigeria Prof Abubakar Sadiq HARUNA Director Institute of Africa Higher Education Research and Innovations Maryam Abacha American University of Nigeria Kano

Hypermedia Courseware: Structures of Communication and Intelligent Help Armando Oliveira, 1992-12-14 This book is based on the NATO Advanced Research Workshop on Structures of Communication and Intelligent Help for Hypermedia Courseware which was held at Espinho Portugal April 19-24 1990 The texts included here should not be regarded as untouched proceedings of this meeting but as the result of the reflections which took place there and which led the authors to revise their texts in that light The Espinho ARW was itself to some extent the continuation of the ARW on Designing Hypermedia Hypertext for Learning held in Germany in 1989 D H Jonassen H Mandl eds Designing Hypermedia for Learning NATO ASI Series F Vol 67 Springer 1990 At that meeting an essential conclusion became apparent the importance and interest of hypermedia products as potential pedagogical tools It was then already predictable that the enormous evolution of hypermedia would lead to its association with multimedia technologies namely for the production of courseware Parallel to the improvement of the didactic potential and quality which results from this association it nevertheless brought along a natural array of difficulties some old some new in the conception and use of hypermedia products Today there is agreement that one of the most promising technological advances for education is represented by the use of text sound and images based on nonlinear techniques of information handling and searching of hypermedia architectures The problem of hypermedia is fundamentally one of communication this leads to an attempt at defining a language for hypermedia

The Ai Toolkit for Teachers Made Easy Hattie Washington, 2025-07-15 **Sixth International Conference on Tools with Artificial Intelligence**, 1994 **The Journal of the National Education Association** National Education Association of the United States, 1928 **American Primary Teacher**, 1897 *The Journal of Educational Method* James Fleming Hosis, 1925 *Journal of Educational Method*, 1926 **Computer Literacy for Teachers** John H. Tashner, 1984 *Pedagogy in a New Tonality* Peter Gouzouasis, 2011 This is a book for teachers by teachers from elementary school to university level classrooms It is about the use of creative instructional strategies in K-12 classroom settings and the transformations the teachers made in their journeys from being traditional practitioners to becoming pedagogical in their approaches to teaching and learning across the curriculum Over twenty teachers conducted

research in their classrooms on the implementation of creative strategies tactics graphics organizers and visual journals in teaching and learning They have written their inquiries in a narrative style informed by various forms of arts based educational research Their research is approachable and usable by other teachers who are interested in becoming reflective reflexive practitioners Many of the strategies tactics and graphics organizers are described by Barrie Bennett in his widely used textbook *Beyond Monet The Artful Science of Instructional Intelligence* However through their journeys of becoming teacher learner researchers many discovered numerous creative variations of Bennett s work as it was implemented in their classrooms While there are many professional books that provide ideas on collaborative learning and creative teaching approaches there is very little published research on the efficacy of these concepts in the K 12 classroom These inquiries provide practical insights into how inspired teachers can conduct research on improving their own practice as well as on greatly improving their students learning

The Artificial Intelligence Playbook Meghan Hargrave,Douglas Fisher,Nancy Frey,2025-04-12 The Latest Time Saving AI Tools that Make Learning More Engaging Busy educators need tools that support their planning and provide them with more time with students While artificial intelligence AI has emerged as a promising solution it can only help if we re willing to continuously learn how to use it in ways that improve upon what we already do well The Artificial Intelligence Playbook Time Saving Tools for Teachers that Make Learning More Engaging Second Edition is a thoroughly updated expanded new edition that reflects the transformative changes that have emerged since the first publication offering updated strategies insights research and examples that address the latest developments in AI technology Learn how to purposefully use AI with Best practices for composing effective prompts for optimal output and incorporating images PDFs or other documents with those prompts An expanded look at the responsible use of generative AI addressing plagiarism citations and other common concerns New strategies and research supporting AI literacy instruction to prepare students for an AI powered future More classroom examples demonstrating AI use cases for instructional best practices across various grade levels Practical ways to implement AI to enhance teaching functions from planning instruction assessment student engagement and more Though AI has the potential to reduce workload for educators it will never replace teachers Your connection with students is irreplaceable and greatly impacts their learning With The Artificial Intelligence Playbook Second Edition in hand educators will find even more time saving tools to help build and sustain those vital relationships with students all while enhancing learning and engagement in the classroom
