The Challenge of College Affordability United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions, 2015 *Creating a Place for Adult Learners in Higher Education* Amy D. Rose, Jovita M. Ross-Gordon, Carol E. Kasworm, 2023-12-29 *Creating a Place for Adult Learners in Higher Education* offers deep insights into how to attract, teach, support, and retain students over the age of 25, an important yet often overlooked student group. Comprehensive in scope, this book covers all the main aspects of adult students' relationships with higher education institutions: recruitment, admissions, and financing; course and program provision; and teaching approaches and student support, retention, and completion. The discussion is bolstered by chapters of analysis on adult student demographics, including both diversities and commonalities; exploration of leadership challenges; and discussion of measurements of success. Drawing from the most up-to-date research as well as practical experience and descriptions of best practices by programs historically serving adults, the authors provide a broad set of strategies and recommendations to place adult students at the center of the educational process. Higher education leaders, practitioners, and administrators will find this book an invaluable resource as they seek to better account for and support this key student group, which now comprises approximately 30% of the US undergraduate population.

Social Structure Adaptation to COVID-19 Suresh Nanwani, William Loxley, 2024-03-19 *Social Structure Adaptation to COVID 19* offers global interdisciplinary perspectives that examine how the COVID 19 pandemic has altered the development trajectory of schools, public health, the workforce, and technology adoption. It explores social themes in society, economy, policy, and culture and draws on a social framework to describe key functions of societal adaptation to the pandemic. Edited by Suresh Nanwani and William Loxley, the volume is grounded in the study of system components and their objectives to improve overall well-being given the ill effects of the COVID 19 pandemic. Chapters explore interconnected social networks and how sectors restructured themselves to stabilize or transform society. International contributors from 20 countries offer case studies that highlight key themes including personal connectivity, societal equality, well-being, big data, and national resilience. They predict how impactful the pandemic might be in reshaping the future and assess how the COVID 19 pandemic has affected school system shutdown, public health collapse, business closures, public policy failure, and technology-driven social media acceleration. Offering insights into how institutions and sectors work together in times of crisis and how COVID 19 has restructured social behavior, *Social Structure Adaptation to COVID 19* will be valuable reading for scholars and students of sociology, political science, anthropology, comparative international development, psychology, and education. It will also be of interest to policymakers concerned with education, work, and organizations, and media and technology.
