AI Based Solutions for Inclusive Quality Education K.M. Soni, Nitasha Hasteer, Aditi Bhardwaj, Rahul Sindhwani, J. Paulo Davim, 2025-09-30 *AI Based Solutions for Inclusive Quality Education* helps readers discover practical AI tools for diverse learning styles and abilities fostering inclusivity in education and maximizing the individual potential of students and educators. It provides cutting edge solutions designed to remove barriers due to accessibility and create an equitable classroom. Through practical applications and case studies the book explores the power of AI in creating personalized learning pathways and methods of engagement in the classroom while emphasizing that the human touch with empathy and critical thinking remains central to the learning process. It addresses concerns about the ethical development and deployment of AI in education. Features: Discusses a topic that is at the forefront of concerns in the education sector with the disruptive impact of advances in AI. Provides explanations for specific AI platforms and tools along with their features and applications in education. Includes case studies and discusses inclusivity and the lessons learned from each AI application. Explains how to ethically handle bias, privacy and transparency in AI based solutions in education. Serves as a comprehensive guide for educators, policymakers and technology developers interested in the power of AI in educational environments. This book serves as a timely reference in the current era of AI tools and education. It is written for those who work in the education sector as well as researchers, academicians, undergraduate and graduate students, those involved with undergraduate teaching in critical thinking and problem solving for information systems, information technology, computer science and engineering and all teaching institutions where AI tools have been or will be introduced.

Potential of AI to Replace Teachers' Expertise: Ethics and Challenges Khan, Shah Nawaz, Pringuet, Philippe, 2025-10-16 As artificial intelligence (AI) advances its integration into education, sparks excitement and concern regarding its potential to replace human teacher expertise. While AI tools can personalize learning, automate administrative tasks and provide real time feedback, substituting humans raises ethical questions and practical challenges. Teaching also involves empathy, critical thinking and social interaction which are difficult for current machines to replicate. This dynamic begs for critical examination of how far AI should be allowed to go in educational settings and whether it can or should replace the human elements of teaching. **Potential of AI to Replace Teachers' Expertise: Ethics and Challenges** explores the ethical considerations, practical strategies and potential challenges associated with the integration of AI tools into the classroom. It provides educators with the necessary knowledge and tools to effectively leverage AI to enhance the teaching and learning experience for students and educators. This book covers topics such as ethics and law, assessments and data science and is a useful resource for educators, engineers, policymakers, academicians, researchers and scientists.

Improving Student Assessment With Emerging AI Tools Moreira, Filipe T., Teles, Rui Oliva, 2024-11-29. Traditional assessment methods often struggle to provide a comprehensive view of student understanding and capabilities, leading to a one-size-fits-all approach. However, AI-driven tools offer personalized adaptive assessments that can adjust to individual learning styles and paces. These technologies can analyze vast amounts of data to identify trends, learning gaps, and specific areas where students may need additional support. By harnessing AI for assessments, educators gain real-time insights, enabling them to tailor instruction and provide targeted feedback. AI can streamline administrative tasks, allowing teachers to focus on fostering meaningful learning experiences. Further exploration into these tools may enhance the assessment landscape, making it more dynamic, inclusive, and effective for diverse learners. *Improving Student Assessment With Emerging AI Tools* explores the positive effects of AI tools on educational assessments. The impact of intelligent technology on automated grading, teaching, and learning is examined. This book covers topics such as learning styles, personalized learning, and teacher training, and is a useful resource for academicians, educators, computer engineers, data scientists, and researchers.

Optimizing Research Techniques and Learning Strategies With Digital Technologies Basha, J., Sadhik, Alade, Taofeek Olanrewaju, Al Khazimi, Mitha Obaid Amur, Vasudevan, Ranjit, Khan, Jahanzeb Bahadur, 2025-02-21. The widespread integration of digital technologies to improve research methodology and educational experiences heralds a transformative period in learning and education known as the Digital Renaissance. This era marks a break from conventional approaches to education and research, embracing digital technologies and platforms to completely transform the creation, sharing, and access of knowledge. The main goal of the Digital Renaissance's enhanced learning strategies is to transform education by using digital tools and technologies to give students individualized, dynamic, and exciting learning opportunities. The convergence of technology and education is becoming more and more important as societies learn to handle the challenges of the digital age. *Optimizing Research Techniques and Learning Strategies With Digital Technologies* focuses on improving learning strategies, making learning strategies more accessible, and advancing academic pursuits in a variety of fields. It emphasizes pushing boundaries in the pursuit of knowledge and discovery while stressing the significance of using technology in research and teaching in an ethical and responsible manner. Covering topics such as competency development, educational leadership, and economic growth, this book is an excellent resource for teachers, curriculum developers, education administrators, corporate trainers, technologists, professionals, researchers, and scholars.
