New Challenges and Opportunities in Physics Education Marilena Streit-Bianchi, Marisa Michelini, Walter Bonivento, Matteo Tuveri, 2023-10-30 This book is invaluable for teachers and students in high school and junior college who struggle to understand the principles of modern physics and incorporate scientific methods in their lessons. It provides interactive and multidisciplinary approaches that will help prepare present and future generations to face the technological and social challenges they will face. Rather than using a unidirectional didactic approach the authors scientists philosophers communication experts science historians and science education innovators divide the book into two parts. The first part Communicating Contemporary Physics examines how new physics developments affect modern culture while the second part Digital Challenges for Physics Learning covers physics education research using ICT plus the experiences of classroom teachers and a range of ideas and projects to innovate physics and STEM teaching.

Transformative Education Charlotte Graham, Philippe Longchamps, 2022-08-03 Transformative Education aims decisively to transform the world of education and to nurture the next generation to become problem solvers and creative thinkers empowered with the necessary skills to make this world a better place. It provides practical methods for sustainable integrative and active learning and investigates the why behind these proven and effective methods. Discussing the different levels of subject integration in school from intradisciplinary to transdisciplinary teaching the authors analyse their potential holistic impact and knowledge retention effectiveness. With a substantial section on the efficacious teaching of the increasingly indispensable field of critical thinking this book is built up first around a discourse of the intended methodology secondly it also includes a very practical mid

section with direct and meticulously described project ideas for teachers to try out and finally a discussion and an analysis on what effects the proposed techniques might have and how teachers and students could be facilitated in their learning processes by school leaders and administrators This pioneering endeavour is an important text for education professionals globally as well as for the policy makers that regulate their work It may also be of interest to parents and to a wider society Additional digital resource content is available online and includes practical examples explanations and video to help support sustainable integrative and active learning

Focused Jim Watterston, Yong Zhao, 2024-02 This guide proposes that school leaders become brave and focused not by abandoning structures or making changes recklessly but by understanding their influence and maximizing positive change with evidence based decisions Topics include building a leadership paradigm for outstanding schools and the most influential elements for collective success
