**Potential of AI to Replace Teachers' Expertise: Ethics and Challenges** Khan, Shahnawaz, Pringuet, Philippe, 2025-10-16 As artificial intelligence AI advances its integration into education sparks excitement and concern regarding its potential to replace human teacher expertise While AI tools can personalize learning automate administrative tasks and provide real time feedback substituting humans raises ethical questions and practical challenges Teaching also involves empathy critical thinking and social interaction which are difficult for current machines to replicate This dynamic begs for critical examination of how far AI should be allowed to go in educational settings and whether it can or should replace the human elements of teaching Potential of AI to Replace Teachers Expertise Ethics and Challenges explores the ethical considerations practical strategies and potential challenges associated with the integration of AI tools into the classroom It provides educators with the necessary knowledge and tools to effectively leverage AI to enhance the teaching and learning experience for students and educators This book covers topics such as ethics and law assessments and data science and is a useful resource for educators engineers policymakers academicians researchers and scientists **5-Gen Leadership** Mark White, 2021-09-07 An unprecedented leadership challenge for school administrators Today s school leaders face the unprecedented challenge of leading five generations Baby Boomers Generation X Millennials and brand new Generation Z teachers along with Gen Alpha today s youngest students Based on extensive research and the author s experience working with thousands of educators and students 5 Gen Leadership addresses the nuances and expectations implicit with leading each generation With an emphasis on developing a multi generational lens through which to view school improvement this book covers topics such as recruiting and retaining today s young teachers tailoring professional development for each generation and helping each generation succeed in a complex accelerating world Readers will also find Tactics for transitioning to 5 Gen Leadership and understanding the four distinct generations in the teaching staff Moving leadership styles from a managing model to a coaching model Advice for understanding and creating a welcoming environment for Gen Z and Gen Alpha Suggestions for closing the digital generation gaps that emerged during the COVID 19 school closures A glimpse into the future to imagine how new generations of leaders will help reshape schools by 2030 If we are going to make the most of reforming our schools in the 2020s and keep up with the exponential rate of change in society we must understand today s students and the four disparate generations in our staffs This book is critical to help leaders bridge those gaps How do we prepare today s students for the rapidly changing workplace and society in which they will live work and interact in an education system designed for a century that has passed us by In 5 Gen Leadership Leading 5 Generations in Schools in the 2020s Mark White clearly provides a well lit path to assist educators to successfully make the necessary cultural structural and instructional changes that are needed Bill Daggett Founder International Center for Leadership in Education ICLE [Multilingual Classrooms for Young Children in the UK](#) Jieun Kiaer, 2025-01-14 This book

demonstrates the importance of raising multilingual children in the UK both for the children's own benefit and for the benefit of society as a whole. Against the backdrop of both the rich linguistic diversity already present in the UK and the challenges faced by any languages other than a few major European languages to find any space in educational contexts, the author challenges the myth that multilingualism hinders English language acquisition and use, instead emphasising the cultural and cognitive advantages of multilingual education and support for home and community languages. The book is a call to action for educators, policymakers and parents, combining practical strategies with research-based insights to support its readers in advocating for multilingual education. It presents a hopeful vision for education in the UK where teachers can combine technological innovations and the linguistic resources of their classrooms and communities to support and promote multilingualism.

**AI-Assisted Special Education for Students With Exceptional Needs** Kumar, Ashish, Nayyar, Anand, Sachan, Rohit Kumar, Jain, Rachna, 2023-10-02. *AI Assisted Special Education for Students With Exceptional Needs* is a comprehensive and insightful exploration of the intersection between special education and artificial intelligence (AI). This book delves into the fundamental principles, historical background, and current challenges faced in providing effective education to students with special needs. It compares traditional education methods with special education practices and highlights the limitations of conventional classrooms in addressing the diverse learning difficulties of exceptional students. The book also explores the impact of AI-based special education on both educators and students, providing valuable insights and strategies for stakeholders to adopt and implement these technologies effectively. Legal aspects surrounding the right to education for disabled individuals are discussed, ensuring a comprehensive understanding of the legal framework supporting special education initiatives. Real-world case studies and success stories serve as inspiration, illustrating the transformative potential of AI in special education. Featuring contributions from academicians and professionals from esteemed organizations, this book provides hands-on chapters that cover topics such as research challenges, data analysis, machine learning, intelligent learning environments, IoT wearable devices, comprehensive systems with intelligent teacher assistance, parental and societal roles, and the prospects of AI-assisted special education. Whether educator, mentor, training professional, researcher, or student, *AI Assisted Special Education for Students With Exceptional Needs* offers a wealth of knowledge and practical insights.

**ChatGPT and Other Generative AI Tools** Jochen Kuhn, Stefan Küchemann, Knut Neumann, Martina Rau, 2025-02-17. In the past ten years, applications of generative artificial intelligence (GAI) have found rapidly growing use in medicine, science, and daily life. Large language models (LLMs) opened up new avenues, in particular for education. LLMs have been used to create interactive educational content for students, stimulate their curiosity, generate code explanations, and develop assessment questions. Additionally, LLMs have been applied for language practice, anxiety alleviation, and feedback provision. In higher education, LLMs have shown potential for assisting in medical exam preparation and clinical decision making. In school education, LLMs can help teachers with automated evaluation of student responses and respective adaptive

feedback More recently LLM based applications such as chatGPT have been used to generate teaching materials or assessment tasks across different subjects The fields understanding of the effects of the use of LLM based applications in classroom teaching however is still in its infancy GAI tools may help solving a range of tasks in education in particular with respect to teachers and students and teachers efforts to generate content However it is critical that teachers and students do not overly rely on GAI generated solutions but instead critically assess each solution Students should furthermore not use GAI tools to avoid investing relevant mental effort to create mental models or more broadly build up competencies
