Exploring the Intersection of Artificial Intelligence and Journalism Santosh Kumar Biswal, Anand J. Kulkarni, 2024-02-02

This book studies the role of Artificial Intelligence AI in journalism. It traces the origin, growth, and development of the media and communication industry in the globalized world and discusses the implications of technologies such as Augmented Reality, Virtual Reality, and Extended Reality which have helped foster a communication revolution across the globe. The volume discusses technology-centric media theories in the context of AI and examines if AI has been a boon or bane for data journalism. It also looks at artificial intelligence in beat reporting and citizen journalism and analyses the social, cultural, and ethical implications of artificial intelligence-driven journalism and the ethical concerns arising from it. An important contribution this book will be indispensable for students and researchers of media studies, communication studies, journalism, social media technology studies, and digital humanities. It will also be useful for media professionals.

**Transformative Digital Technology for Disruptive Teaching and Learning** P Kaliraj, G Singaravelu, T Devi, 2024-02-16  
Generation Z students are avid gamers and are always on social media. Smart like their phones, they must be educated in a smart manner which involves the use of digital tools. Transformative Digital Technology for Disruptive Teaching and Learning provides smart education solutions and details ways in which Gen Z learners can be educated. It covers such digital learning strategies as blended learning, flipped learning, mobile learning, and gamification. It examines creative teaching and learning strategies to encourage modern learners to learn more quickly. The book discusses ways to accelerate the capabilities of teaching and learning transactions. It also covers innovative teaching and learning processes to meet the challenges of digital learners. Starting with an overview of digital learning resources and processes as well as their advantages and disadvantages, the book then discusses such approaches and strategies as follows: Learner-oriented and learner-friendly approaches, Blended learning, Active learning, Experiential learning, Virtual learning, Applications of Cloud Computing and Artificial Intelligence, Gamification, LMS challenges, and techno-pedagogical issues for modern life. As digital technology is disrupting teaching and learning, especially the skill development of students in the era of Industry 4.0 and 5.0, this is a timely book. It provides methods, approaches, strategies, and techniques for innovative learning and teaching. It discusses how to leverage new technology to enhance educators' and learners' abilities and performance. A comprehensive reference guide for educational researchers and technology developers, the book also helps educators embrace the digital transformation of teaching and learning.
