*Work from Home: How to Work from Home Generating Passive Income Selling Online Courses (The Complete Guide to a Genuine Online Job Working From Home in Easy Steps)* Cleo Nicholas, 101-01-01 The idea of structuring your life around passive income is real I currently have four streams of passive or semi passive income I m working on the fifth and would never again consider trading my time for money But it s not as easy as some books suggest As with anything in life if you want to create passive income you will need to understand it plan for it and then work to make it a reality I have done just that and have no need to punch a clock or answer to anyone else Because most of my income is passive I don t have to exert a lot of time or effort to earn a great living Does this sound too good to be true I assure you it s not But this type of lifestyle won t just come knocking at your door You need to get the knowledge and planning skills that will allow you to pursue it You ll discover how to Design a workspace that fuels focus and creativity Set boundaries that protect your time and energy Rest well without guilt so you can recharge and show up at your best Build healthy daily rhythms that sustain long term productivity Communicate and collaborate effectively even at a distance Lead yourself and others with clarity balance and purpose By the end of the book you will have already applied to several job positions and be on your way to achieve your goals We want you to know that you can work remotely and have a healthy and balanced life with some simple changes and those small adjustments will have a huge impact in your professional and personal life We are really excited to have you here with us to learn about remote work and how you can achieve it Let s get started *Managing and Mitigating Suffering at Work* M. Isabel Sanchez-Hernandez, Živilė Stankeviciute, Rūta Adamonienė, Martina Blašková, 2022-11-28 [I Know How She Does It](#) Laura Vanderkam, 2017-01-03 Everyone has an opinion anecdote or horror story about women and work Now the acclaimed author of *What the Most Successful People Do Before Breakfast* shows how real working women with families are actually making the most of their time Having it all has become the subject of countless books articles debates and social media commentary with passions running high in all directions Many now believe this to be gospel truth Any woman who wants to advance in a challenging career has to make huge sacrifices She s unlikely to have a happy marriage quality time with her kids assuming she can have kids at all a social life hobbies or even a decent night s sleep But what if balancing work and family is actually not as hard as it s made out to be What if all those tragic anecdotes ignore the women who quietly but consistently do just fine with the juggle Instead of relying on scattered stories time management expert Laura Vanderkam set out to add hard data to the debate She collected hour by hour time logs from 1 001 days in the lives of women who make at least 100 000 a year And she found some surprising patterns in how these women spend the 168 hours that every one of us has each week Overall these women worked less and slept more than they assumed they did before they started tracking their time They went jogging or to the gym played with their children scheduled date nights with their significant others and had lunches with friends They made time for the things that gave them pleasure and meaning fitting the pieces together like

tiles in a mosaic without adhering to overly rigid schedules that would eliminate flexibility and spontaneity Vanderkam shares specific strategies that her subjects use to make time for the things that really matter to them For instance they Work split shifts such as seven hours at work four off then another two at night from home This allows them to see their kids without falling behind professionally Get creative about what counts as quality family time Breakfasts together and morning story time count as much as daily family dinners and they re often easier to manage Take it easy on the housework You can free up a lot of time by embracing the philosophy of good enough and getting help from other members of your household or a cleaning service Guard their leisure time Full weekend getaways may be rare but many satisfying hobbies can be done in small bursts of time An hour of crafting feels better than an hour of reality TV With examples from hundreds of real women Vanderkam proves that you don t have to give up on the things you really want I Know How She Does It will inspire you to build a life that works one hour at a time

**Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates?** Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren t any specific regulations regarding remote work in Germany yet In general remote work provides workers e g more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber

security When everything s going remotely companies have become an easier target of cyber attacks      A New Science of Suffering, the Wisdom of the Soul, and the New Behavioral Economics of Happiness: Towards a General Theory of Well-being Paul T.
