**The mysterious Instagram algorithm**

While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following

**Timely content** This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts They'll be shown timely content that matters to them

**Interest** This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in

**Relationships** Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future

For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience

**A few notes about Instagram Shopping**

With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform

For businesses that want to enable the Shopping capability they need to meet the following requirements

You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company's registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram

As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing we will not be providing a deep dive of the Instagram Shopping capability

**Influencer Marketing For Beginners** Adrian Peck,2020-10-13 The rise of social media has created alternative methods of advertising for companies Gone are the days where companies would reach their customers through newspapers or television commercials It is now more affordable to connect with customers through online channels such as social media platforms Companies have done an impressive job following their customers and establishing their brands within the same platforms that their customers enjoy However over the years there have been questions surrounding brand trust with many consumers challenging the authenticity of the message shared by brands There has been significant research compiled regarding customer sentiments on brand communication One of the main insights

found was that customers trusted messages shared by their peers over messages shared by brands. The assumption is that companies have an agenda to make profits but our peers seek to educate and empower us. This key assumption is one of the driving forces which has led to the growth of influencer marketing. Influencer marketing allows ordinary individuals to promote the services and products of companies to their specific target audience. Companies pay to have an influencer with a large following on popular social media platforms to advertise their offerings on their behalf. This business strategy has dramatically increased companies' return on investment (ROI) and helped build brand integrity among customers. This book will be a valuable resource to all those individuals who are interested in becoming social media influencers. The reader will learn the ins and outs of social media marketing and some exclusive tactics and strategies on using social media platforms such as Facebook, Instagram, YouTube, TikTok, and Pinterest to develop and grow an audience. Readers will also learn how to create authentic personal brands that will help attract companies, provide them with a unique positioning in the market, and monetize their social media accounts. After reading this book, readers will feel motivated to capitalize on this new movement toward influencer marketing and begin to operate their own marketing enterprises.
