[The Likeability Trap](#) Alicia Menendez, 2019-11-05 Be nice but not too nice Be successful but not too successful Just be likeable Whatever that means Women are stuck in an impossible bind At work strong women are criticized for being cold and warm women are seen as pushovers An award winning journalist examines this fundamental paradox and empowers readers to let go of old rules and reimagine leadership rather than reinventing themselves Consider that even competent women must appear likeable to successfully negotiate a salary ask for a promotion or take credit for a job well done and that studies show these actions usually make them less likeable And this minefield is doubly loaded when likeability intersects with race ethnicity sexual orientation and parental status Relying on extensive research and interviews and carefully examined personal experience The Likeability Trap delivers an essential examination of the pressure put on women to be amiable at work home and in the public sphere and explores the price women pay for internalizing those demands Rather than advising readers to make themselves likeable Menendez empowers them to examine how they perceive themselves and others and explores how the concept of likeability is riddled with cultural

biases Our demands for likeability she argues hinder everyone's progress and power Inspiring thoughtful and often funny The Likeability Trap proposes surprising practical solutions for confronting the cultural patterns holding us back encourages us to value unique talents and styles instead of muting them and to remember that while likeability is part of the game it will not break you [#artselfie](#) Simon Castets, DIS (Organization), 2014 artselfie opens with an incisive remark by Douglas Coupland who warns us that Selfies are mirrors we can freeze Selfies allow us to see how others look at themselves in a mirror making their modeling face when nobody's around except these days everybody's around everywhere all the time artselfie emerged in 2012 right as the recent photographic phenomenon known as the selfie reached its tipping point It was subsequently activated by New York based collective DIS as an aggregated mode of art tourism and documentation These selfies and their dialogue with art are an opportunity to revisit fundamental questions such as if art is a mirror what happens when we place ourselves between it and the camera The traditional trajectory from photographer to subject via the camera has been subverted and with it the nature of images and our perception of them The artselfie makes every participant both protagonist and collaborator consumer and producer Including an introduction by Douglas Coupland author of Generation X Tales for an Accelerated Culture and ruthless observer of contemporary society and a discussion between Simon Castets director of the Swiss Institute in New York and co founder of the 89 project and DIS artselfie allows us to experience how significant and seductive this viral phenomenon is *Vanity Fair*, 2018 **Amelia, If Only** Becky Albertalli, 2025-06-10 Amelia Applebaum isn't in love with Walter Holland He just happens to be her favorite moderately famous chaotically bisexual YouTuber Who she just happened to invite to prom But it's fine No for real If you delete the post it didn't happen Okay maybe her friends are right She's slightly parasocially infatuated But Amelia just knows sparks would fly if only she could connect with Walter for real If only he would host a meet and greet If only it were just a short road trip away And if only Amelia could talk her best friends into making it the perfect last hurrah before graduation even her newly single always cynical guitar toting best friend Natalie One thing's for sure All roads lead to butterflies But what if Amelia's butterflies aren't for Walter at all [The Economist](#), 2012 [Britannica Book of the Year](#), 2013 **Wines & Vines** H.
