Working Mother ,2007-04 The magazine that helps career moms balance their personal and professional lives

**Working Mother** ,2007-04 The magazine that helps career moms balance their personal and professional lives     *The Start-Up J Curve* Howard Love,2016-08-30 A predictable pattern of success Entrepreneurs who have read early drafts of *The Start Up J Curve* responded I wish I had this book years ago A start up unfolds in a predictable pattern the more aware entrepreneurs are of this pattern the better able they will be to capitalize on it Author Howard Love calls this pattern the start up J Curve The toughest part of the endeavor is the time between the actual start of a new business and when the product and model are firmly established *The Start Up J Curve* gives entrepreneurs the tools they need to get through the early challenges so they can reach the primary value creation that lies beyond Love brings thirty five years of start up experience to this comprehensive guide to starting a business He outlines the six predictable stages of start up growth and details the activities that should be undertaken at each stage to ensure success and to avoid common pitfalls Instead of feeling lost and confused after a setback start up founders and investors can anticipate the challenges overcome the obstacles and ride the curve to the top     *Innovative Practices in Teaching Information Sciences and Technology* John M. Carroll,2014-01-27 University teaching and learning has never been more innovative than it is now This has been enabled by a better contemporary understanding of teaching and learning Instructors now present situated projects and practices to their students not just foundational principles Lectures and structured practice are now often replaced by engaging and constructivist learning activities that leverage what students know about think about and care about Teaching innovation has also been enabled by online learning in the classroom beyond the classroom and beyond the campus Learning online is perhaps not the panacea sometimes asserted but it is a disruptively rich and expanding set of tools and techniques that can facilitate engaging and constructivist learning activities It is becoming the new normal in university teaching and learning The opportunity and the need for innovation in teaching and learning are together keenest in information technology itself Computer and Information Science faculty and students are immersed in innovation The subject matter of these disciplines changes from one year to the next courses and curricula are in constant flux And indeed each wave of disciplinary innovation is assimilated into technology tools and infrastructures for teaching new and emerging concepts and techniques *Innovative Practices in Teaching Information Sciences and Technology Experience Reports and Reflections* describes a set of innovative teaching practices from the faculty of Information Sciences and Technology at Pennsylvania State University Each chapter is a personal essay describing practices implemented by one or two faculty that challenge assumptions and push beyond standard practice at the individual faculty and classroom level These are innovations that instructors elsewhere may find directly accessible and adaptable Taken as a set this book is a case study of teaching innovation as a part of faculty culture Innovation is not optional in information technology it inheres in both the disciplinary subject matter and in teaching But it is

an option for instructors to collectively embrace innovation as a faculty The chapters in this book taken together embody this option and provide a partial model to faculties for reflecting on and refining their own collective culture of teaching innovation

**Rural Families and Work** Jean W. Bauer, Elizabeth M. Dolan, 2011-09-15 Rural Families and Work focuses on the findings of the Rural Families Speak research study and the theoretical frameworks that are utilized to examine the context of rural low income families employment This volume provides a solid foundation for understanding rural employment problems and issues Family ecological theory is the central framework with a discussion of theories that contribute to the opportunities for the contextual research including family economic stress theory human capital human capability and some selected policy frameworks Employment is addressed through review of policy issues community contexts family and social support and available resources Throughout the volume future research directions and applications are highlighted
