**What Is Social Media Engagement?** It is the number of shares, likes, and comments. A big following is great, but an engaged audience is better than a big one: quality over quantity. There are certain metrics used to measure social media engagement. They include:

- Use of branded hashtags
- Mentions
- Click-throughs
- Audience and followers growth
- Likes
- Comments
- Retweets
- Shares

Your followers can naturally start engaging with your content. But often you may need to encourage them a little. Here are a few tricks to help you with that:

- Assess your engagement: see how many followers you have, the average number of shares and comments you get on each post, and any other relevant numbers.
- Make sure you continue monitoring these numbers.
- Choose your strategy: every company has different goals, and strategies are thus different. Your strategy will depend on your goals. This could be educating the audience, collecting feedback, changing the public perception, etc.
- Understand your audience: it is not easy to engage people you do not know.

**The Beginner's Guide for Selling on TikTok**

K Stello, 2023-08-26

TikTok is not the same as your normal social networking site, while having many similarities to popular social media sites like Twitter and Instagram. The algorithm is very unique to other platforms. TikTok uses a unique algorithm to guarantee that every video has an equal chance of becoming popular, regardless of how well known the content creator is. This opens up space for quick expansion and growth of social media presences, rapid growth, and practically endless marketing experimentation. What shows up in a user's feed is determined by an algorithm used by TikTok. Every video has a chance of going viral thanks to the intriguing manner that its discovery algorithm works. To attract interested audiences who are ready to buy your products, you can quickly and easily create a TikTok video promoting a product.

The main distinction between TikTok and other social media platforms, particularly Facebook and Instagram, is that the homepages of the latter two are primarily made up of users and channels you already follow. You might be wondering why TikTok has been used to market things. TikTok operates in the opposite manner, giving new creator videos priority.
