original research and a review of existing studies the authors use the 4Es conceptual framework to analyze four key aspects of labor markets employment creation employability entrepreneurship and equal opportunity identifying main issues and results current trends and possible new approaches

A Study of Occupational Opportunities for Chicago's Youth, 1987 *Evaluation Forum*, 1993 *Improving Youth Employment Opportunities* Organisation for Economic Co-operation and Development, 1984 **Youth Authority Quarterly**, 1976 **Fostering Youth Employment** Alexander Schumann, Eric Thode, 2006 This book provides insight into the evolution and status quo of the youth employment situation in 13 OECD countries In addition to the state of the labor market for young people the survey centers on the phases of transition from school to work as well as the institutional design of the labor market itself in vocational education and in active youth employment policy The report also focuses on recent reform projects to combat youth unemployment and the description of best practices with the same objective The countries surveyed are Australia Austria Canada Denmark Finland Germany Italy the Netherlands Spain Sweden Switzerland the United Kingdom and the United States Alexander Schumann and Eric Thode are project managers of the economic division at the Bertelsmann Stiftung Youth Record, 1996

California Youth Authority Quarterly, 1976 **Youth Employment** Australia. Parliament. House of Representatives. Standing Committee on Employment, Education and Training, 1997 Congressional Record United States. Congress, 1979 Take on the Future Canada. Ministerial Task Force on Youth, 1996 **Youth Employment and Unemployment in Rural England** Elliot Stern, 1986 Pilot study of youth employment and youth unemployment of rural youth in the UK based on interviews of local level employers and young workers examines employment policies which have a bearing on employment opportunities for young people reports on rural industry types size etc rural employment recruitment training and job access analyses attitudes of youths towards job searching rural life work attitudes etc includes recommendations Bibliography maps questionnaire statistical tables *Voices of Rural Youth* Thomas Dax, Ingrid Machold, 2002 **Youth in the Labour-market** D. N. Ashton, Malcolm J. Maguire, Valerie Garland, 1982 Research paper on trends and issues relating to young worker employment opportunity in the UK based on a 1979 1980 sample survey of 350 employers examines industrial sector agricultural sector and service sector employment labour market segmentation access to adult labour markets training recruitment methods management attitudes toward educational level etc discusses employment policy implications and includes the questionnaire Diagrams graphs and references **Youth and Employment**, 1977 *Jobs for Young People: a Way to a Better Future*, 1988 We must conclude by warning that the severity of youth employment problems today pales to insignificance beside those which could be face in the future in developing countries These countries face a pattern of escalating proportions Their youth population is projected to rise by more than 125 million over 16 per cent by the end of the century In Africa the youth population could triple over the next forty years The population increase in urban areas might be even more dramatic since the natural increase could continue to be augmented by rural urban migration By 2000 half the

youth of developing countries could live in cities There will be a massive increase too in the number of educated youth School enrolment in developing countries is spreading fast despite severe resource constraints The prospects are in one sense alarming But looking to the future the energies and economic potential of youth should be seen positively as a potential dynamic element in growing economies rather than merely as a problem If societies are willing to invest in youth it will repay that investment many times over From the Report Unemployment involves wasted resources but it is also a wider human problem The loss is not just economic Youth is a period of transition from childhood to adulthood of energy and of willingness to learn and serve With work this can be directed towards a common benefit without work it is dissipated or even channelled into anti social behaviour From the Foreword by the Commonwealth Secretary General
