scholars and researchers of post colonial studies cultural studies literature history political science and sociology *Urban Legends, Colonial Myths* James Ogude, Joyce Nyairo, 2007 A book on popular culture's role in mediating contemporary life and power relations in Africa it demonstrates that popular cultural productions are not fixed to an unchanging social category as the basis for their creation but are defined by mobility of ideas creative borrowing and improvisation The authors also provide a compelling reading of how urban legends rumours and jokes proliferate alongside pop music to express a sub culture that is at once a critique and a celebration of modernity and its fragments *Myths and Facts of the American Revolution* Arthur Johnston, 1908 *The Pilgrims Didn't Celebrate the First Thanksgiving* Julia McDonnell, 2016-12-15 Every student grows up hearing about the first Thanksgiving celebrated by the Pilgrims and Native Americans in 1621 However that wasn't the first Thanksgiving It wasn't even the first one celebrated by European settlers This is just one myth debunked in this valuable look at colonial American history Readers will feel like real historians unearthing the truth behind the legends Beautiful images and fun fact boxes will add to their interest Myths - Realities Carl Bridenbaugh, 1981-06

Myths and Realities Carl Bridenbaugh, 1981-02-27 Anne Warfield Rawls argues that although Durkheim's *The Elementary Forms of Religion* is the crowning achievement of his sociological accomplishments it has been consistently misunderstood Rather than a work on primitive religion or the sociology of knowledge Rawls asserts that Durkheim's analysis represents an attempt to establish a unique epistemological basis for the study of sociology and moral relations Based on detailed analysis of the primary text this book will be an important and original contribution to contemporary debates on social theory and philosophy Colonial America K. David Goss, A. A. Grishin, 2021-01-13 This book provides the essential primary documentation needed to clarify readjust and in some cases destroy the many commonly held myths of America's colonial past America's past is in many respects misunderstood and distorted Even our secondary level and college classrooms are not always capable of correcting the common misconceptions about Columbus and his discovery Jamestown John Smith and Pocahontas the Salem Witch Trials and even the American Revolution What is often lacking in texts on these events and people is a narrative with a solid underpinning of primary sources that clearly explains how misconceptions began how they were perpetuated and finally how they made their way into contemporary American popular culture *Colonial America Facts and Fictions* separates myth from reality The authors explore 10 popular myths about the period each of which is examined in terms of its origin and how it became ensconced in American memory It uses primary sources to explain the evolution of the myths and to inform readers about what actually happened This book explains all of this and most importantly exposes the modern reader to those essential primary source documents that clarify the distortions and disprove the popular misconceptions of the past **Colonial Histories, Postcolonial Memories** Abdelmajid Hannoum, 2001-09-19 No other North African legend had been adopted transformed and used by as many social groups as that of the Kahina myth In this book Abdelmajid Hannoum examines the role the myth played in what may be called an ideological conquest Since its

inception in the 9th century the Kahina legend has provided the ideological armature for use in anticolonial struggles North African nationalism Berber nationalism and Arab feminism But the Kahina story has also provided the ideological justification for incursions into North Africa by various groups who used the legend to articulate the region as Arab sometimes French sometimes Berber and sometimes Jewish His book further explores the processes and context in which memories of the past are transformed and shaped not only by those recounting the legend orally but by historians writing about North Africa Islam and French colonial rule in the region In the tradition of Edward Said's Orientalism Abdelmajid Hannoum's study of the Kahina myth is a vibrant account of the spread of Islam Arab and French colonialism in the North African region Colonial Histories Postcolonial Memories through its innovative methodology and extensive use of oral accounts is also an illuminating exploration of the complexities involved in the production of historical knowledge

Fugitive Knowledge Andreas Beer, Gesa Mackenthun, 2015 Encounters between cultures are also encounters between knowledge systems This volume brings together a number of case studies that explore how some knowledge in cultural contact zones becomes transient evanescent and ephemeral The essays examine various aspects of cultural especially colonial epistemic exchanges placing special emphasis on the fate of those knowledges that are not easily appropriated by or translated from one cultural sphere into another and thus remain at the margins of cross cultural exchanges In addition the imposition of colonial power is unthinkable without the strategic deployment and use of knowledge most colonial states including those of Germany in the Baltic and in West Africa were knowledge acquiring machines yet acquisition always includes rejection detainment and subjugation of recalcitrant epistemes Bringing together insights from various scholarly disciplines including literary studies history historical anthropology and political science the essays in this volume investigate how different or unfamiliar knowledge was and in some cases still is disarticulated by being belittled discredited and demonized But they also show the strategies of resilience deployed by subjugated and subaltern people the ways in which certain materials have escaped the colonality of knowledge how fragments and shards of other epistemologies remain inscribed in the polyphony and fuzziness
