## Colonial Schooner 1763 1775:

The Colonial Schooner, 1763-1775 Harold M. Hahn, 1981 Provides historical background information on eighteenth century sailing ships and shows how to construct wooden scale models of two different schooners Explorers to 1815 Teacher's Manual Ned Bustard, Eric Vanderhoof, Christi McCullars, Shea Foster, Emily Fischer, Aaron Larsen, 2007 A Boston Schooner in the Royal Navy, 1768-1772 Phillip Reid, 2023 Uses rare surviving records including fully intact logbooks to situate the customs enforcement interceptor Sultana within the wider picture of the British Atlantic in this crucial period HONORABLE MENTION 2023 Lyman Book Award for North American Naval History The small Boston built schooner Sultana served as a customs enforcement interceptor on the North American eastern seaboard in the period leading up to the American Declaration of Independence when British taxation of American trade was a hugely contentious issue As a typical workaday British American merchant ship taken into naval service Sultana offers a rare opportunity to understand a technology of paramount importance to this world where records for merchant ships are scarce but where in this case a wealth of information from plan drawings to the fully intact logbooks has survived The book provides a detailed narrative of the ship's activities and reveals the nature of life on board and the day to day business of operating a small sailing ship It explores the technology of the ship and her sailing qualities as revealed by the ship's logs and also by the performance of a modern replica In addition the book situates Sultana's role within the wider picture of the British Atlantic in this crucial period It is thereby both naval microhistory and also Atlantic history for all scholars interested in the formation and development of the British Atlantic world **'I am Determined to Live or Die on Board My Ship.'** Jim Tildesley, 2019-04-02 *The Mariner's Mirror*, 1984 **The Colonial Merchants and the American Revolution, 1763-1776** Arthur Meier Schlesinger, 1918 *Maritime Archaeology* Lawrence E. Babits, Hans Van Tilburg, 2013-11-11 This volume initiates a new series of books on maritime or underwater archaeology and as the editor of the series I welcome its appearance with great excitement It is appropriate that the first book of the series is a collection of articles intended for graduate or undergraduate courses in underwater archaeology since the growth in academic opportunities for students is an important sign of the vitality of this subdiscipline The layman will enjoy the book as well Academic and public interest in shipwrecks and other submerged archaeological sites is indicated by a number of factors Every year there are 80 to 90 research papers presented at the Society for Historical Archaeology's Conference on Historical and Underwater Archaeology and the Proceedings are published Public interest is shown by extensive press coverage of shipwreck investigations One of the most important advances in recent years has been the passage of the Abandoned Shipwreck Act of 1987 for the first time providing national level law concerning underwater archaeological sites The legislation has withstood a number of legal challenges by commercial treasure salvors a very hopeful sign for the long term preservation of this nonrenewable type of cultural resource The underwater archaeological discoveries of 1995 were particularly noteworthy The Texas Historical
