Arthur James Wells

Colonialist Photography Imagining Race And Place:

Colonialist Photography Eleanor M. Hight, Gary David Sampson, 2002 Colonialist Photography is an absorbing collection of essays and photographs exploring the relationship between photography and European and American colonialism The book is packed with well over a hundred captivating images ranging from the first experiments with photography as a documentary medium up to the decolonization of many regions after World War II Reinforcing a broad range of Western assumptions and prejudices Eleanor M Hight and Gary D Sampson argue that such images often assisted in the construction of a colonial culture

The Camera as Actor Amy Cox Hall, 2020-11-29 Looking beyond the impact photographs have on the perpetuation and expression of social norms and stereotypes and the influence of the act of taking a photograph this new collection brings together international scholars to examine the camera itself as an actor Bringing the camera back into view this volume furthers our understanding of how and in what ways imaging technology shapes us our lives and the representations out of which we fashion knowledge base our judgments and ultimately act Through a broad range of case studies the authors in this collection make the convincing claim that the camera is much more than a mechanical device brought to life by the photographer This book will be of interest to scholars in photography visual culture anthropology and the history of photography

Race, Empire and First World War Writing Santanu Das, 2011-04-28 Drawing upon fresh archival material this book recovers the experience of different ethnic groups during the First World War conflict

Photography in India Aileen Blaney, Chinara Shar, 2020-09-23 Photography's prominence in the representation and experience of India in contemporary and historical times has not guaranteed it a position of sustained attention in research and scholarship For a technology as all pervasive as photography and a country as colossal as India this scenario is somewhat of an anomaly Photography in India explores elements of the past present and future of photography in the context of India through speculation and reflection on photography as an artistic documentary and everyday practice The perspectives of writers theorists curators and artists are selectively brought to bear upon known as well as previously unseen photographic archives together with changes in photographic practice that have been synchronous with contemporary India's rapid urban and rural transformation and the technological shift from chemistry and light to programming and algorithms Essential reading for anyone interested in Indian photography this book binds insights into a history of photography with its contemporary development consolidating wide ranging thinking on the topic and setting the agenda for future research

Methods & Theories of Art History Third Edition Anne D'Alleva, Michael Cothren, 2021-08-05 This book is an accessible introduction to the critical theories used in analysing art It covers a broad range of approaches presenting individual arguments controversies and divergent perspectives This edition has been updated to reflect recent scholarship in contemporary art and has been broken down into smaller sections for greater accessibility The book begins with a revised discussion of the difference between method and theory The following chapters apply the varying approaches to works of art

some of them new to this edition The book ends with a new conclusion that focuses on the way the study of art is informed by theory *Methods and Theories of Art History* Anne D'Alleva,2005 This is an analysis of complex forms of art history It covers a broad range of approaches presenting individual arguments controversies and divergent perspectives The book begins by introducing the concept of theory and explains why it is important to the practice of art history **Look Again!** Anne D'Alleva,2005 This handbook is designed to accompany the major textbooks used in the art history survey presenting various methods for analysis of art as well as extensive tips on writing about art Professor Anne D Alleva created this handbook to accompany the major textbooks used in art history survey courses Because the main survey texts focus on the artworks themselves she saw the need for a complementary handbook that introduces students to the methodologies of art history in an open accessible way Look discusses basic art historical practices such as visual and contextual analysis and provides guidelines for writing papers and taking examinations in art history It provides a short history of the discipline and provides links to related academic disciplines to provide students with a sense of intellectual context for their work Publisher's website [The Waterhouse Albums](#) John Falconer,2009 [An Eye for the Tropics](#) Krista A. Thompson,2006 A beautifully illustrated look at the aesthetics and implications of the visual images used to sell Jamaica and the Bahamas to tourists as tropical paradises from the 1880s through the 1930s *The British National Bibliography* Arthur James Wells,2002 [Screen](#) ,1991 *Colonial Photography and Exhibitions* Anne Maxwell,1999 4e de couverture This book investigates the historical practice of producing stereotyped spectacles of colonized peoples at the great exhibitions and in colonial photography and relates it to the shaping of European and settler identities In doing so it singles out the homogeneous aspects of colonialism's culture as well as distinguishing its discontinuities By comparing the images produced in Britain and France with those produced in North America Australia New Zealand the Pacific Japan and China it proposes that differences in representations of colonized peoples between the imperial centres and the colonies were the result of different social and political agendas By focusing on the images connected to anthropology dying race theory travel tourism and portraiture Maxwell argues that while some photographs were directed at naturalizing the precept of colonialism others were used to criticize it and to empower indigenous subjects Written from a postcolonial perspective and pursuing an interdisciplinary approach this book will be of interest to scholars students and researchers intent on knowing more about the images of racial and cultural difference that shaped our immediate past *Joyce in the Belly of the Big Truck; Workbook* Joyce A. Cascio,2005-05 **Picturing a Colonial Past** Isaac Schapera,2007-06-30 Publisher Description [Visions of Nature](#) Dr. Jarrod Hore,2022-04-19 Visions of Nature revives the work of late nineteenth century landscape photographers who shaped the environmental attitudes of settlers in the colonies of the Tasman World and in California Despite having little association with one another these photographers developed remarkably similar visions of nature They rode a wave of interest in wilderness imagery and made pictures that were hung in settler drawing rooms perused in albums projected in theaters and

re created on vacations In both the American West and the Tasman World landscape photography fed into settler belonging and produced new ways of thinking about territory and history During this key period of settler revolution a generation of photographers came to associate nature with remoteness antiquity and emptiness a perspective that disguised the realities of Indigenous presence and reinforced colonial fantasies of environmental abundance This book lifts the work of these photographers out of their provincial contexts and repositions it within a new comparative frame *Afterimage of Empire* Zahid R. Chaudhary,2012 How the colonial photograph revolutionized the very nature of perception The violence of colonial photography Daniel Foliard,2022-11-15 The late nineteenth century saw a rapid increase in colonial conflicts throughout the French and British empires It was also the period in which the camera began to be widely available Colonial authorities were quick to recognise the power of this new technology which they used to humiliate defeated opponents and to project an image of supremacy across the world Drawing on a wealth of visual materials from soldiers personal albums to the collections of press agencies and government archives this book offers a new account of how conflict photography developed in the decades leading up to the First World War It explores the various ways in which the camera was used to impose order on subject populations in Africa and Asia and to generate propaganda for the public in Europe where a visual economy of violence was rapidly taking shape At the same time it reveals how photographs could escape the intentions of their creators offering a means for colonial subjects to push back against oppression Photography and American Coloniality Raoul J. Granqvist,2017-04-01 This book is the first to question both why and how the colonialist mythologies represented by the work of photographer Eliot Elisofon persist It documents and discusses a heterogeneous practice of American coloniality of power as it explores Elisofon s career as war photographer correspondent and staff photographer for LIFE filmmaker author artist and collector of primitive art and sculpture It focuses on three areas Elisofon s narcissism voyeurism and sexism his involvement in the homogenizing of Western social orders and colonial legacies and his enthused mission of sending home a mass of still life photographs annexed African artifacts and assumed vintage knowledge The book does not challenge his artistic merit or his fascinating personality what it does question is his production and imagining of difference As the text travels from World War II to colonialism postcolonialism and the Cold War from Casablanca to Leopoldville Kinshasa it proves to be a necessarily strenuous and provocative trip **Image Matters** Tina Campt,2012-03-06 Campt explores the affective resonances of two archives of Black European photographs for those pictured their families and the community Image Matters looks at photograph collections of four Black German families taken between 1900 and the end of World War II and a set of portraits of Afro Caribbean migrants to Britain taken at a photographic studio in Birmingham between 1948 and 1960 **Photography on the Color Line** Shawn Michelle Smith,2004-06-07 An exploration of the visual meaning of the color line and racial politics through the analysis of archival photographs collected by W E B Du Bois and exhibited at the Paris Exposition of 1900
