**"Colorblind" Racism** Leslie G. Carr, 1997-08-19 Many of the vestiges of the Civil Rights movement including initiatives such as affirmative action are increasingly under attack by those who assert that the Constitution is explicitly color blind In this argument the government is not legally permitted to take race into account in a color conscious manner More than 30 years have passed since the landmark Civil Rights Acts became the law of the land Yet one of three African American men between the ages of 18 and 27 is in the hands of the criminal justice system churches are burning in the South and right wing militia groups are flourishing In this provocative and timely book Leslie G Carr suggests that the Constitution can be read as racist and that the concept of color blindness is in fact the latest in a series of racist ideologies that have been part of the American fabric Color Blind Racism provides a thorough historical grounding in racist ideologies in the United States and will be of great interest to anyone teaching or studying race relations public policy urban studies and race and politics

*White Fright* Jane Dailey, 2020-11-17 A major new history of the fight for racial equality in America arguing that fear of black sexuality has undergirded white supremacy from the start In White Fright historian Jane Dailey brilliantly reframes our understanding of the long struggle for African American rights Those fighting against equality were not motivated only by a sense of innate superiority as is often supposed but also by an intense fear of black sexuality In this urgent investigation Dailey examines how white anxiety about interracial sex and marriage found expression in some of the most contentious episodes of American history since Reconstruction in battles over lynching in the policing of black troops behavior overseas during World War II in the violent outbursts following the Supreme Court's decision in *Brown v Board of Education* and in the tragic story of Emmett Till The question was finally settled as a legal matter with the Court's definitive 1967 decision in *Loving v Virginia* which declared interracial marriage a fundamental freedom Placing sex at the center of our civil rights history White Fright offers a bold new take on one of the most confounding threads running through American history

*Fog of War* Kevin M. Kruse, Stephen Tuck, 2012-01-06 This collection is a timely reconsideration of the intersection between two of the dominant events of twentieth century American history the upheaval wrought by the Second World War and the social revolution brought about by the African American struggle for equality Exploring the impact of war on the longer history of African American protest from a wide range of angles it reveals how activists faced setbacks as well as successes and how their opponents found ways to establish more rigid defenses for segregation

**Dance Floor Democracy** Sherrie Tucker, 2014-10-23 Open from 1942 until 1945 the Hollywood Canteen was the most famous of the patriotic home front nightclubs where civilian hostesses jitterbugged with enlisted men of the Allied Nations Since the opening night when the crowds were so thick that Bette Davis had to enter through the bathroom window to give her welcome speech the storied dance floor where movie stars danced with soldiers has been the subject of much U S nostalgia about the Greatest Generation Drawing from oral histories with civilian volunteers and military guests who danced at the

wartime nightclub Sherrie Tucker explores how jitterbugging swing culture has come to represent the war in U S national memory Yet her interviewees varied experiences and recollections belie the possibility of any singular historical narrative Some recall racism sexism and inequality on the nightclub s dance floor and in Los Angeles neighborhoods dynamics at odds with the U S democratic egalitarian ideals associated with the Hollywood Canteen and the Good War in popular culture narratives For Tucker swing dancing s torque bodies sharing weight velocity and turning power without guaranteed outcomes is an apt metaphor for the jostling narratives different perspectives unsteady memories and quotidian acts that comprise social history

Robinson,2008 This work draws upon congregational histories and other primary sources to chronicle for the first time the

story of African American Churches of Christ in Texas Emerging out of the nineteenth century Stone Campbell Restoration Movement the African American churches inherited from their white mentors both a biblicist theology and a feisty spirit So evangelist John T Ramsey could report in 1916 that there are but few loyal brethren out in this part of Texas so you can see that the fight is on out West The fight waged by Ramsey and his successors was against religious error and in support of the true church as they understood it Out of that fight emerged a growing network of congregations that by the mid twentieth century reached throughout Texas This book lifts out of obscurity the African American Christians who joined Ramsey s fight out West and who made black Churches of Christ in Texas what they are today BOOK JACKET
