Color Complex The Politics Of Skin Color Among African Americans:

The Color Complex Kathy Russell, Kathy Russell-Cole, Midge Wilson, Ronald E. Hall, 1993 Presents a powerful argument backed by historical fact and anecdotal evidence that color prejudice remains a devastating divide within black America

The Color Complex (Revised) Kathy Russell, Midge Wilson, Ph.D., Ronald Hall, 2013-01-08 A provocative exploration of how Western standards of beauty are influencing cultures across the globe and impacting personal professional romantic and familial relationships Processes like skin lightening in India hair smoothing in Black America eyelid reconstruction in China and plastic surgery worldwide continue to rise in popularity for men and women facing discrimination from both within and outside of their own increasingly fluid ethnic groups Now including a wealth of new information since the first edition of *The Color Complex* over two decades ago the authors through a historical and sociological lens have measured the impact of recent pop culture events effecting race relations to determine whether colorism has gotten better or worse over time

The Color Complex (Revised) Kathy Russell, Midge Wilson, Ph.D., Ronald Hall, 2013-01-08 A courageous humane and provocative examination of how differences in color and features among African Americans have played and continue to play a role in their professional lives friendships romances and families *Race, Gender, and the Politics of Skin Tone* Margaret L. Hunter, 2013-05-13 *Race Gender and the Politics of Skin Tone* tackles the hidden yet painful issue of colorism in the African American and Mexican American communities Beginning with a historical discussion of slavery and colonization in the Americas the book quickly moves forward to a contemporary analysis of how skin tone continues to plague people of color today This is the first book to explore this well known yet rarely discussed phenomenon **The Politics of Skin Tone**

Nicole D. Yadon, 2025-05-05 A nuanced examination of the salience of skin tone within African American politics Research shows that skin tone is associated with significant differences in life experiences On average African Americans with darker skin earn lower wages suffer worse health outcomes and endure more negative criminal justice experiences than lighter skinned African Americans Nicole D Yadon conceptualizes skin tone as one facet of the multidimensional construct of race that powerfully influences racialized experiences which in turn can influence political identities and attitudes Drawing on evidence from one hundred in depth interviews multiple surveys and a survey experiment *The Politics of Skin Tone* investigates the political associations of skin tone Yadon finds that skin tone correlates with political attitudes particularly on issues where color based disparities are especially pronounced such as criminal justice Moreover a sizable number of African Americans adopt a skin tone based identity In an era of shifting racial boundaries and growing color based discrimination *The Politics of Skin Tone* examines the implications for both scholars and policymakers **Encyclopedia of**
