Latin American Writers on Gay and Lesbian Themes David William Foster, 1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author's writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe

S.E.L.A. ,1997 The Literature of Catastrophe Carlos Fonseca, 2020-05-14 This book investigates how nature and history intertwined during the violent aftermath of the Latin American Wars of Independence Synthesizing intellectual history and readings of textual production The Literature of Catastrophe reimagines the emergence of the modern Latin American nation states beyond the scope of the harmonious foundational fictions that marked the emergence of the nation as an organic community Through a study of philosophical literary and artistic representations of three catastrophic figures earthquakes volcanoes and epidemics this book provides a critical model through which to refute these state sponsored happy narratives proposing instead that the emergence of the modern state in Latin America was indeed a violent event whose aftershocks are still felt today Engaging a variety of sources and protagonists from Simón Bolívar's manifestoes to Cesar Aira's use of landscape in his novels from the revolutionary role mosquitoes had within the Haitian Revolution to the
