the symbolism has shifted over time Think of how black transitioned from a color of mourning to the ultimate in elegance how millennial pink has defined the Instagram generation and beige once a sophisticated favorite of Chanel now reflects the normcore subculture Featuring images of iconic colorful moments in fashion history including Jennifer Lopez in green Versace Alexandra Ocasio Cortez in white tailoring and Audrey Hepburn in that Little Black Dress this book is an essential read for fashion lovers everywhere Colors in Fashion Jonathan Faiers, Mary Westerman Bulgarella, 2017 Color speaks a powerful cultural language displaying political sexual and economic messages that throughout history have shown how we relate to ourselves and our world This ground breaking collection is the first to interrogate how color s manifestation through fashionable and ceremonial dress has played a significant role in the formation of society performing dialogues of social acceptance and exclusion convention and subversion From the use of white in pioneering feminism and the French postwar penchant for black to mystical scarlet broadcloth and the transformation of arsenic laden green from consumer favorite to sexual deviant this book shows that color in dress is never straightforward and is as mutable nuanced and varied as color itself Divided into four thematic parts solidarity power innovation and desire each section highlights the often violent emotional and complex histories of color in dress across geographical temporal and cultural boundaries
