Circle 1

The romantically Mediterranean Sanctor home entertainment center with 21" rectangular Color TV, Solid State stereo and FM-AM-FM Stereo radio.

America's most successful space programs have it;
RCA Victor Color TV has it: The reliability of RCA circuitry.
The solid kind.

It's breathtaking. New RCA Victor Color TV. Even people who understand how it works watch it in awe. With pleasure.

If those glorious colors don't convince you, wait a minute. There are two important things you can't see behind that beautiful color picture.

One is reliability—the reliability of RCA Solid Copper Circuits. They replace old-fashioned hand-wiring in over 200 possible trouble spots. They won't come loose. Won't short-circuit. Won't go haywire. They're solid. And circuits used in some of NASA's most successful space programs are solid, too!

What else is behind that great color picture? Experience. RCA Victor has more experience in Color TV than many manufacturers have in making black-and-white sets. Stands to reason, doesn't it, that the one

proved in the most homes will work best in yours?

A word about cabinet styles. See Spanish, Early American, Contemporary, Scandinavian, French or Italian Provincial—and more. All are faithful adaptations, rich in fine furniture detail, glowing with the deep beauty of magnificent woods and costly veneers.

Good reasons, aren't they, for looking at RCA Victor Color TV first? You'll see why more people own RCA Victor Color TV than any other kind. Shouldn't you?

Color Television The Business Of Colorcasting:

Color Television Howard W. Coleman, 1968 Camp TV of the 1960s Isabel Cristina Pinedo, Wyatt D. Phillips, 2023
Camp TV of the 1960s offers a comprehensive understanding of all of the many forms camp TV took during that critical decade. In reevaluating the history of camp on television, the authors reconsider the infantilized conceptualization of sixties television which has generally been characterized as the creative and cultural ebb between the 1950s Golden Age of television and the networks' shift to relevance in the early 1970s. Encompassing contributions from a broad range of media and television scholars that reconsider programs like *Batman*, *The Monkees*, *The Addams Family*, *Bewitched*, *F Troop*, *The Beverly Hillbillies*, and *Rowan British*, camp television programs such as *The Avengers* use of musical codes to convey camp humor even on black and white sets; the role that the viewing strategies of queer communities played and continued to play even decades later; and how camp's multivalence allowed for more conservative readings especially among older audiences which were critical for the move to mass camp throughout American culture by the early seventies. *Camp TV of the 1960s* is essential reading for students and scholars in television studies and others interested in the history and theory of camp, the 1960s, or popular culture as well as fans of these well-known but generally understudied television programs. **A Companion to the History of American Broadcasting** Aniko Bodroghkozy, 2018-07-23
