*Color Psychology and Color Therapy* Faber Birren, 1961 From the Dust Jacket Faber Birren is not a theorist but a practical craftsman Unlike most of us Faber Birren is willing to learn from anybody He has learned from the most diverse people from people who contradict each other from people who denounce each other from the occultists and mystics as well as from the biologists and agnostic scientists It is in this book Faber Birren does not try to explain away the inexplicable He says very well Explanations of psychological and psychical phenomena are not always easy and indeed unnecessary There are in man many strange and inexplicable mysteries regarding color Faber Birren makes his living by prescribing color He prescribes it to government to education to the armed forces to architecture to industry and commerce The public was not buying nearly enough billiard tables for basement rumpus rooms Birren found that American women would not have the green topped billiard tables in their homes Look at the price of this stock on the market it all happened when Birren had the firm change the color of the table covering to a soft purplish tone In the Southern textile mills of Marshall Field Company Birren reduced fatigue by giving workers light green end walls He relieved monotony for telephone girls by introducing yellow into the decoration of exchanges He reduced accidents by devising a new color scheme The advent of fluorescent lights brought Birren many new accounts because special color treatment was needed to spar employees eyestrain and keep objects from looking ghastly As million of inexperienced men and women entered industrial jobs in World War II the accident rate rose rapidly Birren surveyed scores of plants often two in one day and at night dictated

his suggestions The plants then rushed in paint gangs to put his advice into effect and the accident toll began to fall By using Birren s safety color code according to the U S Army some government plants during the war cut their accident frequencies from 46 14 to 5 58 per thousand He laid out color specifications for almost everything found in or on a naval shore establishment even to altering the color scheme of the helmet worn by men who work on ships and docks In three years the Navy lowered its accident frequency from 6 4 to 4 6 a drop of twenty eight per cent Birren s color code for safety has become internationally accepted in countries as remote from each other as England Japan Italy Argentina Uruguay His work has been acknowledged and recommended by the Council on Industrial Health of the American Medical Association In 1955 the U S State Department sent him to an international congress in Rome on work productivity safety and industrial health He went as the only and world s leading authority on color

**The Journal of Physical Therapy. V. 1-2** ,1906      *Alternative Healing Through Chromotherapy* Lilia Seven,2013-11 Chromotherapy or color therapy is a method of therapy that is done using color In itself color does not heal but it has been said that it enables the body to heal itself It probably has something to do with light frequency and vibration and how everything works together to make the whole That is why color therapy is a form of holistic healing it aims to see the whole picture Colors have different frequencies and vibrations and even correspond to a certain note on the musical scale We have heard the words green with envy in the pink of health down in the blues red carpet treatment and such Since the mind and emotions are the most powerful energies on earth people have come to associate colors with emotions and vice versa In order to better understand how color affects our lives let us see how it has evolved from the simple consciousness of early man to how we have come to use it now in our daily lives
