*Color Conscious* Kwame Anthony Appiah, Amy Gutmann, 1998-03-16 In America today the problem of achieving racial justice whether through color blind policies or through affirmative action provokes more noisy name calling than fruitful deliberation In *Color Conscious* K Anthony Appiah and Amy Gutmann two eminent moral and political philosophers seek to clear the ground for a discussion of the place of race in politics and in our moral lives Provocative and insightful their essays tackle different aspects of the question of racial justice together they provide a compelling response to our nation's most vexing problem Appiah begins by establishing the problematic nature of the idea of race He draws on the scholarly consensus that race has no legitimate biological basis exploring the history of its invention as a social category and showing how the concept has been used to explain differences among groups of people by mistakenly attributing various essences to them Appiah argues that while people of color may still need to gather together in the face of racism under the banner of race they need also to balance carefully the calls of race against the many other dimensions of individual identity and he suggests finally what this might mean for our political life Gutmann examines alternative political responses to racial injustice She argues that American politics cannot be fair to all citizens by being color blind because American society is not color blind Fairness not color blindness is a fundamental principle of justice Whether policies should be color conscious class conscious or both in particular situations depends on an open minded assessment of their fairness Exploring timely issues of university admissions corporate hiring and political representation Gutmann develops a moral perspective that supports a commitment to constitutional democracy Appiah and Gutmann write candidly and carefully presenting many faceted interpretations of a host of controversial issues Rather than supplying simple answers to complex questions they offer to citizens of every color principled starting points for the ongoing national discussions about race Become Color Conscious Lien

Angelo Corlett, 2018-08-06 If affirmative action and other ethnicity based social

programs are justified then J Angelo Corlett believes it is important to come to an adequate understanding of the nature of ethnicity in general and ethnic group membership in particular In *Race Racism and Reparations* Corlett reconceptualizes traditional ideas of race in terms of ethnicity As he makes clear the answers to the questions What is a Native American or What is a Latino have important implications for public policy especially for those programs designed to address historic injustices and economic and social imbalances among different groups in our society Having supplanted race with a well defined concept of ethnicity the author then analyzes the nature and function of racism Corlett argues for a notion of racism that must encompass not only racist beliefs but also racist actions omissions and attempted actions His aim is to craft a definition of racism that will prove useful in legal and public policy contexts Corlett places special emphasis on the broad

questions of whether reparations for ethnic groups are desirable and what forms those reparations should take land money social programs He addresses the need for differential affirmative action programs and reparations policies the experiences and oppressors of different ethnic groups vary greatly Arguments for reparations to Native and African Americans are considered in light of a variety of objections that are or might be raised against them Corlett articulates and critically analyzes a number of possible proposals for reparations *Color Conscious* K.
