Columbia History Of Western Philosophy:

The Columbia History of Western Philosophy Richard Henry Popkin, 1999 Sections on Aristotle and Plato are followed by a detailed presentation on Hellenic philosophy and its influence on the modern developments of materialism and scepticism A chapter has been dedicated to Jewish and Muslim philosophical development during the Middle Ages focusing on the critical role of figures such as Averro s and Moses Maimonides in introducing Christian thinkers to classical philosophy Another chapter considers Renaissance philosophy and its seminal influence on the development of modern humanism and science Turning to the modern era contributors consider the importance of the Kabbalah to Spinoza Leibniz and Newton and the influence of popular philosophers like Moses Mendelssohn upon the work of Kant This volume gives equal attention to both sides of the current rift in philosophy between continental and analytic schools charting the development of each right up to the end of the end of the 20th century

Understanding Self and Others in the Postmodern World Richard E. Bailey Ph. D., 2013-01-22 Understanding Self and Others in the Postmodern World is unlike most books directed at giving people insight into themselves in that it is addressed to those who want to think about their lives relationships with others and how Western culture has arrived at the Postmodern World This book examines seven different worldviews that have become dominant for periods of time in the history of Western culture The author explains that although all worldviews share the same structure and characteristics they vary markedly in their contents Further a worldview molds those entering it after its own image Those readers 1 who identify their own assumptions about the nature of reality what it means to be a human being and the truth will gain insight into themselves And identifying the assumptions held by others on these matters will give the reader insight into them The problem in the Postmodern World is that we live and work with people who live in these different worlds That situation has invited disagreement and conflict which unresolved has led to the chaos that is characteristic of our time The solution before the nations of the West is that each citizen must grant to all others the same rights to life liberty and the pursuit of happiness he or she claims for him or herself

Vermeer and Plato Robert D. Huerta, 2005 There are thirty six illustrations Jacket *African Belief and Knowledge Systems* Munyaradzi Mawere, 2011-09-20 The debate on the existence of African philosophy has taken central stage in academic circles and academics and researchers have tussled with various aspects of this subject This book notes that the debate on the existence of African philosophy is no longer necessary Instead it urges scholars to demonstrate the different philosophical genres embedded in African philosophy As such the book explores African metaphysical epistemology with the hope to redirect the debate on African philosophy It articulates and systematizes metaphysical and epistemological issues in general and in particular on Africa The book aptly shows how these issues intersect with the philosophy of life traditional beliefs knowledge systems and practices of ordinary Africans and the challenges they raise for scholarship in and on philosophy with relevance to Africa The Publishers Weekly , 1898 **Reference & User Services Quarterly** , 1999
