Columbus, Cortés Ramón Iglesia, 1969 **The New Man and the New World** Richard Di Giacomo, 2003 This book explains the emergence of the idea of a new world The collective discoveries of Christopher Columbus Amerigo Vespucci John and Sebastian Cabot and Giovanni da Verrazzano constitute a distinct Italian Era of Discovery which laid the groundwork for all other voyages which followed The Italian discoverers deserve a place alongside the well known Humanists in the history of art literature philosophy and government by virtue of their research and accomplishments The explorers also made original contributions to the fields of science navigation and cartography The world view of the Italian explorers evolved to include the concept of a new world They had to reevaluate their cosmography and change the maps to reflect their new knowledge The concept of a New World was equally profound as that of a new age The most important contribution of the Italian explorers was not what they found but the change in thinking that took place when they tried to explain their discoveries This book has been read by those with an interest in the Age of Discovery Renaissance Humanism and the history of the New World It has been used in university classes as required reading in classes related to these topics Deadly Baggage Al Sandine, 2015-08-11 In 1519 a few hundred Europeans led by Hernan Cortes sailed from Cuba to the Mexican mainland where they encountered representatives of the Aztec Empire Their Iberian history culture and religion and their experience in the Greater Antilles made conquest and riches the aim of these adventurers They regarded themselves as heroes in a romantic crusade of good against evil Each member of the expedition sought to acquire precious metals and to become a lord of enslaved native labor Their horses and steel swords aided by native disunity and susceptibility to Old World diseases ensured their success This analysis of the conquest of Mexico stands in contrast to previous narratives that either reduce the conquest to a contest between Cortes and Montezuma or describe a near miraculous victory of European ingenuity and Western values over Indian superstition and savagery The author re frames the clash of civilizations in New World prehistory that left inhabitants at a disadvantage **Mexico** Robert Ryal Miller, 1985 Describes pre Columbian cultures the Spanish conquest colonial rule the Mexican Revolution and modern Mexico and its architecture art literature music education and economic problems Books on Early American History and Culture, 1961-1970 Raymond D.
