**The Line** William T. Bowers, 2021-12-14 Many combat veterans refuse to discuss their experiences on the line With the passage of time and the unreliability of memory it becomes difficult to understand the true nature of war In *The Line* Combat in Korea January February 1951 retired Army colonel William T Bowers uses firsthand eyewitness accounts of the Korean War to offer readers an intimate look at the heroism and horror of the battlefield These interviews of soldiers on the ground are particularly telling because they were conducted by Army historians immediately following combat Known as the

forgotten war the action in Korea lasted from June 1950 until July 1953 and was particularly savage for its combatants During the first few months of the war American and U N soldiers conducted rapid advances and hasty withdrawals risky amphibious landings and dangerous evacuations all while facing extreme weather conditions In early 1951 the first winter of the war frigid cold and severe winds complicated combat operations As U N forces in Korea retreated from an oncoming Chinese and North Korean attack U S commanders feared they would be forced to withdraw from occupation and admit to a Communist victory Using interviews and extensive historical research *The Line* analyzes how American troops fought the enemy to a standstill over this pivotal two month period reversing the course of the war In early 1951 the war had nearly been lost but by February's end there existed the possibility of preserving an independent South Korea Bowers compellingly illustrates how a series of small successes at the regiment battalion company platoon squad and soldier levels ensured that the line was held against the North Korean enemy *The Line* is the first of three volumes detailing combat during the Korean War Each book focuses on the combat experiences of individual soldiers and junior leaders Bowers enhances our understanding of combat by providing explanatory analysis and supplemental information from official records giving readers a complete picture of combat operations in this understudied theatre Through searing firsthand accounts and an intense focus on this brief but critical time frame *The Line* offers new insights into U S military operations during the twentieth century and guarantees that the sacrifices of these courageous soldiers will not be lost to history

*With a Black Platoon in Combat* Lyle Rishell, 1993 Men The 24th Infantry Regiment has received bad press from many historians of the Korean conflict who claim that the black soldiers and noncommissioned officers were undisciplined and even cowardly in battle Rishell's moving account based on his own experiences describes his men as no better or worse than any other infantrymen in the first year in Korea His troops fought well from July 1950 to May 1951 in nearly constant front line action against the North

*Leadership in the Crucible* Kenneth E. Hamburger, 2003-04-07 At the pivotal battles of Twin Tunnels and Chip'yong ni in February 1951 U N forces met and contained large scale attacks by Chinese forces Colonel Paul Freeman and the larger than life Colonel Ralph Monclar led the American 23rd Infantry Regiment and the French Bataillon de Corée respectively in the fierce and dangerous battles that followed the precipitous U N retreat down the Korean Peninsula In *Leadership in the Crucible* Kenneth Hamburger details the actions of the units in the United Nations counteroffensive following the Chinese intervention including routine patrols the harrowing battle of Twin Tunnels and the pivotal siege of Chip'yong ni The regiment was cut off from artillery fire support and was resupplied only by parachute drops Repeatedly attacked by superior Chinese forces during the two nights and final day of fighting the U N units finally welcomed relief by the armored Tank Force Crombez of the 1st Cavalry Division From extensive personal interviews and a careful reconstruction of the written record Hamburger brilliantly analyzes the roles that training cohesion morale logistics and leadership play in success or failure on the front lines of limited war He also addresses the vexing problem of when and at what level commanders have the right and

even the responsibility to question lawful orders they believe are flawed In this careful consideration of combat leadership at all levels Hamburger offers his readers stories of men sustaining themselves and one another to the limits of human endurance By thoroughly sorting out the chaos carnage and courage of the battles he provides a uniquely detailed description of these two crucial battles and a well organized discussion of unit cohesion and command that is sure to become a classic in the field of leadership studies
