*A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942, 1942* **The American Legion**, 2005 *Bombs, Cities, and Civilians* Conrad C. Crane, 1993 As the might and capabilities of American airpower have grown during the last 60 years so has the controversy about its use in the intentional and indiscriminate wartime bombardment of civilians In *Bombs Cities and Civilians* Conrad Crane maintains that for the most part American airmen in World War II remained committed to precision bombing doctrine Instead of attacking densely populated urban areas simply to erode civilian morale Army Air Forces adhered to a policy that emphasised targeting key industrial and military sites He demonstrates that while the British Germans and Japanese routinely conducted indiscriminate aerial bombardment of enemy cities American airmen consistently stayed with daylight raids against carefully selected targets especially in Europe Daytime precision missions were usually far more dangerous than night area attacks but such Army Air Forces tactics increased bombing efficiency and also reduced the risk of civilian casualties **Federal Records of World War II: Military agencies** National Archives (U.S.), 1982 *Into the Rising Sun* Patrick K. O'Donnell, 2010-07-13 In his award winning book *Beyond Valor* Patrick O'Donnell reveals the true nature of the European Theater in World War II as told by those who survived Now with *Into the Rising Sun* O'Donnell tells the story of the brutal Pacific War based on hundreds of interviews spanning a decade The men who fought their way across the Pacific during World War II had to possess something more than just courage They faced a cruel fanatical enemy in the Japanese an enemy willing to use anything for victory from kamikaze flights to human guided torpedoes Over the course of the war Marines paratroopers and rangers spearheaded D Day sized beach assaults encountered cannibalism suffered friendly fire incidents and endured torture as prisoners of war Though they are truly heroes they claim no glory for themselves As one soldier put it When somebody gets decorated it's because a lot of other men died By at last telling their stories these men present a hard unvarnished look at the war on the ground a final gift from aging warriors who have already given so much Only with these accounts can the true horror of the war in the Pacific be fully known Together with detailed maps of each battle *Into the Rising Sun* offers a complete yet deeply personal account of the war in the Pacific and a ground level view of some of history's most brutal combat **America's 1st Freedom**, 2002 **Warmaking and American Democracy** Michael David Pearlman, 1999 While war is most effectively waged as a united effort the United States has consistently waged military conflict without firm central direction Throughout our history observes Michael Pearlman the waging of war has been subject to continuous bargaining and compromise among competing governments and military factions What passes for strategy emerged from this process *The Military Engineer; Journal of the Society of American Military Engineers*, 1963 *Books in Print*, 1977
