G. Sweeting, 2001 Details the aircraft and missions of Adolf Hitler s personal aircraft transportation squadron An unparalleled reference guide to some of the legendary aircraft of the era including the Junkers Ju 52 3m the Focke Wulf FW 200 Condor and the Junkers Ju 290 Contains rare photographs of Hitler s personal planes and of life inside the inner circle of the Third Reich Adolf Hitler was the first head of state to have his own personal pilot and airplane His interest in aviation as a propaganda weapon as well as transportation led him to order the establishment of a special air squadron the Fliegerstaffel des Fuehrers To command this unique unit he chose Hans Baur veteran World War I combat ace and pioneering airline pilot During the 1930s and World War II the Fuehrer s own pilot and special aircraft flew the famous and the infamous Baur flew Hitler his inner

circle and visiting dignitaries throughout Europe to Hitler's secret headquarters and to the far flung battlefields of the Eastern Front. The aircraft used in the squadron were the Junkers Ju 52 3m D 2600, the Focke Wulf FW 200 Condor and the Junkers Ju 290, a true flying fortress. Sweeting also discusses the remark **Boeing B-29 Superfortress** William Wolf, 2005. Although many books have been published about the B 29, none has been an in depth look with most being either superficial pictorials or focusing on the bombing campaigns, particularly the incendiary attacks and atomic bombings. This book, using rare previously unexplored sources, intends to provide the definitive look at the bomber and crew, detailing every facet for the air enthusiast, historian, and modeler. The author was granted rare access to the Pima Air Space Museum's restored B 29 Sentimental Journey for inspection and photography, resulting in the most extensive photographic documentation of the B 29 ever published. The Pima Museum's archives, filled with B 29 technical and crew manuals, also gave the author extensive information that had not been previously published. These sources, the author's extensive personal library, and microfilm resources enabled the author to produce this comprehensive look at the bomber and its crew in the context of the bomber's development and operational use. It is truly monumental in scope, both in words and photos.
