Combat Nurse:

A Half Acre of Hell Avis D. Schorer, 2000 **They Called Them Angels** Kathi Jackson, 2006-03-01 With the insight and intimacy of firsthand accounts from some of the thousands of army and navy nurses who served both stateside and overseas during World War II this book tells the stories of the brave women who used any and all resources to save as many lives as possible Although military nurses could have made more money as civilians thousands chose to leave the security of home to care for the young men who went off to war They were not saints but vibrant women whose performance changed both military and civilian nursing Kathi Jackson's account follows army and navy nurses from the time they joined the military through their active service to their lives today *They Called Them Angels* presents the stories of women who lived under extraordinary circumstances in an extraordinary time women who even today bear emotional scars along with lasting pride

Women at War Elizabeth M. Norman, 1990 Norman tells the dramatic story of fifty women members of the Army Navy and Air Force Nurse Corps who went to war working in military hospitals aboard ships and with air evacuation squadrons during the Vietnam War Here in a moving narrative the women talk about why they went to war the experiences they had while they were there and how war affected them physically emotionally and spiritually For the Boys NCR Davis, 2023-09-30 This novelistic narrative captures both the violence and trauma of WWII and its subject's remarkable heroism Publishers Weekly A month after her 24th birthday Lt Mary Elizabeth Balster collapses among the rubble of a shelled supply room Has the young nurse finally succumbed to the mounting emotional toll caused from months of caring for the sick and wounded just behind the front lines of General Patton's Third Army On the night of November 30 1944 holed up in the Heinrich Himmler Barracks in Morhange France Lt Balster's evac receives a typical patient load over 200 soldiers including wounded enemy but this time one of the admissions is a 19 year old tanker she'd nursed back to health five months before in Normandy The charge nurse on Surgical gently informs the lieutenant that the private is critical admitted with two gunshot wounds and almost half his body consumed by burns Rising determined to save him Balster limps toward the shelled supply room determined to search for any blood plasma bottles still intact after Luftwaffe strafing Recaptured from her mother's reminiscences and letters home N C R Davis takes the reader through every heat of battle harrowing moment as Balster lived it achieving a rare glimpse of one nurse's point of view during the latter part of the European conflict The book mixes Lt Balster's observations memories and dreams to re-tell the true story of a richly rebellious and intense woman trying to navigate her life and nurture her sanity while nursing the wounded and dying frontline soldiers of the Third Army Her strong-willed beguiling personality fosters the grit necessary for her success as a combat nurse but these same characteristics cause two men to fall in love with her And the personal cost of war comes to a heartrending conclusion as she must choose one man over the other to save herself **Women in the United States Military** Judith Bellafaire, 2011-01-26 Women's participation in the U S Armed Forces has grown over time in response to the national need for their services

Throughout each era of American history patriotic women volunteered to serve their country in a wide variety of official and unofficially sanctioned capacities. When there was a call to duty the United States Armed Forces always relied upon women to be a part of the effort. This book provides information to enable students and scholars to understand the effect women have had on wars that have shaped the United States.

Healing Wounds Diane Carlson Evans, Bob Welch, Joseph Galloway, 2020-05-26. In 1983 when Evans came up with the vision for the first ever memorial on the National Mall to honor women who'd worn a military uniform she wouldn't be deterred. She remembered not only her sister veterans but also the hundreds of young wounded men she had cared for as she expressed during a Congressional hearing in Washington D.C. Women didn't have to enter military service but we stepped up to serve believing we belonged with our brothers in arms and now we belong with them at the Vietnam Veterans Memorial. If they belong there we belong there. We were there for them then. We mattered. In the end those wounded soldiers who had survived proved to be there for their sisters in arms joining their fight for honor in Evans' journey of combating unforeseen bureaucratic obstacles and facing mean spirited opposition. Her impassioned story of serving in Vietnam is a crucial backstory to her fight to honor the women she served beside. She details the gritty and high intensity experience of being a nurse in the midst of combat and becomes an unlikely hero who ultimately serves her country again as a formidable force in her daunting quest for honor and justice.

Combat Nurse Eric Taylor, 1999. Collection of accounts of nurses in combat zones at sea and on land during the Second World War draws upon the personal and often disturbing revelations of those nurses who frequently put their own lives at risk.

Vietnam War Nurses Patricia Rushton, 2013-04-17. Eighteen nurses who served in the United States military nurse corps during the Vietnam War present their personal accounts in this book. They represent all military branches and both genders. They served in the theater of combat in the United States and in countries allied with the U.S. They served in front line hospitals, hospital ships, large medical centers and small clinics. They speak of caring for casualties during a conflict filled with controversy and of patriotism of the nursing profession of travel and the adventure of friendship and love.

G. I. Nightingales Barbara Brooks Tomblin, 2003-11-28. Recounts the history of the Army Nurse Corps whose members served with but not in the armed forces and describes the experiences of nurses in every theater of World War II including the special situation faced by African American nurses.

Angel Walk Sharon I. Richie-Melvan, Diane Vines, 2010. Angel Walk reveals the untold stories of the men and women who have fought for the lives of those wounded in wartime and provides a unique perspective into the hearts and minds of U.S. military nurses.

Healing Wounds Diane Carlson Evans, 2020-05-26. What is the price of honor? It took ten years for Vietnam War nurse Diane Carlson Evans to answer that question and the answer was a heavy one. As a nurse in Vietnam in 1968-1969 Diane Carlson Evans learned to overcome seemingly impossible odds including the night she and a corpsman kept twenty-six severely dehydrated soldiers alive in the darkness as artillery barraged their hospital. Fourteen years later this Wisconsin mother of four felt called to establish the first memorial honoring military women on the

National Mall But she had no idea what she was in for What followed was a ten year battle to overcome sexism bureaucracy and betrayal within her own rank Evans was labeled a feminazi and received death threats At a national Veterans of Foreign Wars convention she was all but booed off the stage Allies undermined her Editorial writers opined that a women s memorial adjacent to the Vietnam Veteran Memorials was like putting an Elvis statue on Mt Rushmore But Evans persevered detailed notebooks reveal that she completed more than twenty thousand tasks in the quest for her decade long dream And in November of 1993 she made history the Vietnam Women s Memorial was dedicated near The Wall bringing honor healing and hope to the 265 000 otherwise forgotten women who served during the Vietnam War

Physicians and Nurses in the Dutch Armed Forces Francesca Hooft, 2024-11-09 This book analyzes the challenges and ethical dilemmas military physicians and nurses experienced while deployed on military operations and how they dealt with them It traces the developments during the deployment of medical personnel within the Dutch armed forces between 1990 and 2010

Throughout this time medical personnel were confronted with anything from a scarcity of supplies to military hierarchy factors that potentially threatened their medical standards as well as their professional autonomy They had to navigate between differing expectations priorities and moral codes of the medical and the military profession This book makes an original and indispensable contribution to academic debates on medical personnel in the armed forces and dual loyalty ethical decision making processes moral competence and the salience of professional identity in the role of perception decision making and coping both during and after deployment The target audience for this book is primarily academics working in the social sciences humanities medicine and ethics Military and medical practitioners policymakers NGOs and educational institutions may use the book s findings for policy and educational purposes

Officer, Nurse, Woman Kara Dixon Vuic, 2010-01-01 Winner 2010 Lavinia L Dock Award American Association for the History of Nursing An American Journal of Nursing Book of the Year in History and Public Policy I never got a chance to be a girl Kate O Hare Palmer lamented thirty four years after her tour as an army nurse in Vietnam Although proud of having served she felt that the war she never understood had robbed her of her innocence and forced her to grow up too quickly As depicted in a photograph taken late in her tour long hours in the operating room exhausted her both physically and mentally Her tired eyes and gaunt face reflected the weariness she felt after treating countless patients some dying some maimed all like her forever changed Still she learned to work harder and faster than she thought she could to trust her nursing skills and to live independently She developed a way to balance the dangers and benefits of being a woman in the army and in the war Only fourteen months long her tour in Vietnam profoundly affected her life and her beliefs Such vivid personal accounts abound in historian Kara Dixon Vuic s compelling look at the experiences of army nurses in the Vietnam War Drawing on more than 100 interviews Vuic allows the nurses to tell their own captivating stories from their reasons for joining the military to the physical and emotional demands of a horrific war and postwar debates about how to commemorate their service Vuic also explores the

gender issues that arose when a male dominated army actively recruited and employed the services of 5 000 nurses in the midst of a growing feminist movement and a changing nursing profession Women drawn to the army s patriotic promise faced disturbing realities in the virtually all male hospitals of South Vietnam Men who joined the nurse corps ran headlong into the army s belief that women should nurse and men should fight Officer Nurse Woman brings to light the nearly forgotten contributions of brave nurses who risked their lives to bring medical care to soldiers during a terrible and divisive war

And If I Perish Evelyn Monahan, Rosemary Neidel-Greenlee, 2004-11-09 In World War II 59 000 women voluntarily risked their lives for their country as U S Army nurses When the war began some of them had so little idea of what to expect that they packed party dresses but the reality of service quickly caught up with them whether they waded through the water in the historic landings on North African and Normandy beaches or worked around the clock in hospital tents on the Italian front as bombs fell all around them For more than half a century these women s experiences remained untold almost without reference in books historical societies or military archives After years of research and hundreds of hours of interviews Evelyn M Monahan and Rosemary Neidel Greenlee have created a dramatic narrative that at last brings to light the critical role that women played throughout the war From the North African and Italian Campaigns to the Liberation of France and the Conquest of Germany U S Army nurses rose to the demands of war on the frontlines with grit humor and great heroism A long overdue work of history *And If I Perish* is also a powerful tribute to these women and their inspiring legacy

Navy Medicine, 2007 *Minority Nurse*, 2007 *International Encyclopedia of Military History* James C. Bradford, 2004-12 With its impressive breadth of coverage both geographically and chronologically the *International Encyclopedia of Military History* is the most up to date and inclusive A Z resource on military history From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them the campaigns and wars to the weapons and equipment used in them this international and multi cultural two volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history

Nurses in War Elizabeth Scannell-Desch, Mary Ellen Doherty, 2012-04-23 Print CourseSmart **A Contemporary History of the U.S. Army Nurse Corps**, This book focuses on an organization the U S Army Nurse Corps which the author has been privileged to be affiliated with in one way or another for the greatest part of her adult life As an active duty officer the author had first hand knowledge about the Army Nurse Corps inner workings and spent the last years of her Army career from 1992 researching and writing the Corps history One of her goals in researching and writing this history was to intrigue and provide a sense of gratification for the reader After the conclusion of the Vietnam War several wide ranging and significant changes exerted myriad effects on the Army Nurse Corps The most influential of these phenomena included the dismantling of the Selective Service System the reorganization of the Army the launch of the Health Services Command HSC the opening of the Academy of Health Sciences the transformation of the Office of the Army Surgeon General the inauguration of improvements in the Army Reserve and
