EU Counter-Terrorism and Intelligence Javier Argomaniz, Oldrich Bures, Christian Kaunert, 2017-10-02 The Treaty on the European Union stipulates that one of the key objectives of the Union is to provide citizens with a high level of safety within an Area of Freedom Security and Justice Given that the fight against terrorism is a prominent aspect of this general objective it is remarkable that in spite of its political relevance and decade long history it has only relatively recently received due attention in the academic community Yet an analysis of the successes and failures of the EU's involvement in this field is imperative and this is a particularly pertinent moment to take stock of progress The goal of this book is therefore to look back at the post 9/11 period and answer the question of whether when it comes to the measures taken to combat terrorism following these attacks the EU has lived up to the promise made in its founding treaties In pursuing this goal this volume presents the views of leading experts casting a critical eye over the EU's performance recognising achievements but also being suitably critical when the realities did not match the European rhetoric In doing this the book makes a significant contribution not only to the scholarly investigation of European Union policies but also to the study of counter terrorism in general This book was published as a special issue of *Intelligence and National Security*

Human Rights and Globalisation, 2006 **Crisis Management in the European Union** Stefan Olsson, 2009-07-06 In less than a decade Europe has witnessed a series of large scale natural disasters and two major terrorist attacks Growing concern about the trans national effects of these incidents has caused the EU Member States to seek more multilateral cooperation As a result a system of common arrangements for handling large scale emergencies or disasters has emerged which due to its quick and ad hoc development may seem almost impenetrable to newcomers to the field This book seeks to provide a much needed overview of disaster and crisis management systems in the EU It provides a basic understanding of how EU policy has evolved the EU's mandate and above all a concise and hands on description of the most central crisis management arrangements Written by some of Europe's main experts and consultants in the field this book represents a unique and comprehensive source of information for everyone involved or interested in the European Union crisis management system

This book will quickly become an indispensable resource for two groups Practitioners will enjoy its accessible and comprehensive style Academics curious about this emerging field will turn to it for an introductory overview As someone who closely studies this field I find the book engaging detailed and accurate and I read every line with great interest The authors are to be commended for the quality of research that went into this work Mark Rhinard Senior Research Fellow at the Swedish Institute of International Affairs UI

Official Records ,1946 **Allied Against Terrorism** Alistair Millar, Eric Rosand, 2006 There is now broad recognition that even the most powerful of countries cannot successfully fight terrorism on its own Cross border cooperation is necessary to trace funding disrupt planning and thwart new attacks as well as to investigate capture and prosecute terrorists and their supporters should those preventive efforts fail While the initial impulse for effective action may come from individual states sustaining it requires ongoing coordination Five years after the attacks of September 11 what are the prospects for the global counterterrorism campaign Allied against Terrorism is an up to date assessment of the global efforts to combat terrorism Beginning with a look at the effectiveness of the international measures against terrorist violence already in place Alistair Millar and Eric Rosand give a rigorous analysis of the United Nations led campaign of nonmilitary measure to combat global terrorist threats identifying some successes but also detailing the many shortcomings of the UN s operation units and political bodies responsible for counterterrorism Millar and Rosand offer a number of reform suggestions to make UN efforts more coherent and effective but argue that these reforms are only an interim stage in coordinating an effective global counterterrorism campaign what truly is needed is a new global organization dedicated to combating terrorism Millar and Rosand explore the tasks that a global counterterrorism organization could undertake and examine a wide array of possible models from which to draw in constructing such an organization Offering specific examples of why the United States and other developed nations might be willing to support the creation of a dedicated organization Millar and Rosand also assess how this organization would be welcomed by nations in the global South

Lopez, 2007 As terrorist attacks continue around the world from London and Madrid to Afghanistan and Iraq questions multiply about the effectiveness of current antiterrorist strategies America s reliance on military approaches and the Bush administration s avowal of a constant state of war have overshadowed nonmilitary multilateral efforts and there has been an analogous neglect of these alternative strategies in the literature on terrorism Uniting Against Terror fills this gap examining and evaluating post 9 11 cooperative nonmilitary responses to the global terrorist threat with a particular focus on efforts of the United Nations the Financial Action Task Force the European Union

and a wide array of multilateral institutions Uniting Against Terror argues that defeating the global terrorist threat requires engaging international financial diplomatic intelligence and defense communities and law enforcement organizations in an atmosphere of cooperation It examines cooperative diplomatic and economic policies to address the changing face of terrorism and the global Al Qaida threat differentiates between protective measures and long term preventive policies and makes recommendations for effective cooperative nonmilitary strategies Included are chapters that analyze the UN and its role the unique blend of sanctions and diplomacy that convinced Libya to end its support of terrorism efforts to halt the financing of terrorist networks and an account of the European Union s unified Plan of Action against terrorism
