London's Forgotten Children Gillian Pugh,2011-11-30

In 1739 the London Foundling Hospital opened its doors to take in the abandoned children of the city. It was the culmination of seventeen years of campaigning by Captain Thomas Coram driven by his horror at seeing children die in the streets. He was supported in his endeavours by a royal charter and by William Hogarth and George Frideric Handel. The Hospital would continue as both home and school for over 215 years raising thousands of children until they could be apprenticed out. London's Forgotten Children is a fascinating history of the first children's charity charting the rise of this incredible institution and examining the attitude towards illegitimate children over the years. The story comes alive with the voices of children who grew up in the Hospital and the concluding fully updated account of today's children's charity. Coram is an ongoing testament to the vision of its founder.

Dictionary of Social Welfare Noel W Timms, Rita Timms, 2016-06-10. First published in 1982, this dictionary offers a practical aid to students of social work and of social policy in their conversation about social welfare. It explains the meaning or range of meanings of common terms and explains their applications in welfare legislation, policy and use by welfare practitioners. It helpfully cross references terms with similar or related terms that might be considered alongside. In addition, most entries are concluded by references which introduce the reader to a more extended treatment of the term or an elaboration of its application in the language of social welfare. Although first published in 1989, this book will be a valuable resource for students of social work, social policy and social welfare.

Hudson, 2018-08-17 Published in 1998 this book brings together some of the key findings in parenting and educational programmes from researchers at the University of Oxford working in primary health care educational studies clinical psychology and applied social studies At a time of considerable changes in family life and society in general there is concern that some children are not achieving their potential because of emotional and behavioural difficulties This book looks across the health education and social divide and highlights what we know and what we don't know about effective strategies in helping children and their parents overcome their difficulties Each chapter is written by a different member of the centre at Oxford for Research into Parenting and Children and is based on their research *Education Canada*, 1982 *Child Care and Health* Jean Brain, Molly D.
