Conceptions of Rule and God in *3 Maccabees*

Abstract: In *3 Maccabees*, kingship as a form of rule is addressed on two levels: On the political level the question about a good king is addressed against the background of Hellenistic understandings of kingship, using the example of Ptolemy IV Philopator. This king is portrayed at the beginning of *3 Maccabees* as a successful, positive, Hellenistic ruler, but one whose good rule goes off the rails. This analysis of the ideal of Hellenistic rule (cf. *3 Macc.* 3:12–29; 6:24–28; 7:1–9) is then taken to a theological level: the God of Israel is portrayed as the true good king, the Soter who saves his people in their time of greatest trial (6:29, 32; 7:36). By these means the many divine epithets that are a striking feature of *3 Maccabees* are incorporated into the narrative (cf. 2:2–3). Thereby *3 Maccabees* not only thematises the conflict with a Hellenistic king who exploits his power in diverse ways but also focuses in a concentrated way the notion of a good (Hellenistic) king into the notion of God as king and ruler.

Keywords: Maccabees, Hellenistic kingship, Xenophon, Cyropaidia, Isocrates, God in *3 Macc*

1 Introduction

In the book so-called *3 Maccabees* we learn nothing about the Maccabees or about the period of the Maccabees. Rather, the book portrays events that took place during the rule of the Ptolemaic king Ptolemy IV Philopator (222/1–205/4 BCE). The relationship of King Ptolemy IV to the Jewish community is narrated in two episodes:¹ the threat posed by the king's desire to enter the temple in Jerusalem (1:1–2:24), and the attempt, initiated by the king, to kill the Jews of Alexandria in the hippodrome (2:25–7:22). *Third Maccabees* ascribes to King Ptolemy IV Philopator the deliberate plan to annihilate the Jews with the help of his administration and his army. There is no historical basis for the story; in the time of Ptolemy IV the government apparently had no major problems with the

Ethical Issues and the Religious and Historical Basis for the Objection of Jehovah's Witnesses to Blood Transfusion Therapy André Carbonneau, 2003
 This book explores the sensitive area of medical decision making in cases where a patient refuses recommended medical treatment for religious or moral reasons. The case in point is the refusal of blood transfusion therapy by Jehovah's Witnesses. The theological and historical basis is examined in depth. The history of blood use in medicine is also analyzed, including the role of bloodletting as the queen of remedies for centuries and eventually the emergence of the reverse practice, blood transfusion. Against this backdrop of theological, historical, and medical information, the study examines the ethical and legal issues raised by the stand of Jehovah's Witnesses. The principle of autonomy and its development into a legal concept as well as its introduction into medical ethics, leading to the development of the doctrine of informed consent into both a legal rule as well as an ethical duty imposed on health care professionals, are considered.

A History of Christian, Jewish, Hindu, Buddhist, and Muslim Perspectives on War and Peace: The Bible to 1914 Jerry William Frost, 2004
 Frost, Swarthmore College, has written widely about peace and Quakers. Here he compiles perspectives from the major world religions on war and peace for general readers who are not specialists in the history of religions, the evolution of wars, the relationship between the two, but are interested in how faith communities in the past dealt with issues similar to those in effect now. In addition, he says, particular chapters could be used in undergraduate courses and seminars. Volume two focuses on what it calls a century of wars from World War I into the post-Cold War era. The two volumes are paginated together, and the index and bibliography for both are contained in each.
