Contemporary Economic Theory Radical Critiques Of Neoliberalism:

Contemporary Economic Theory Andriana Vlachou, 2016-07-27 Leading international scholars challenge neoliberalism on its assumptions way of reasoning and empirical evidence In particular they discuss critically from the standpoint of radical perspectives the issues of limiting the state and privatization inflation and unemployment and the possibility of a socialist society They also discuss the current project for the monetary and economic union EMU of Europe considered as an application of neoliberalism They assess and question the internal market the common currency and central bank independence and investigate alternatives to the EMU project and the marketization agenda Neoliberalism and

Imperialism: Dissecting the Dynamics of Global Oppression Tatah Mentan, 2016-08-06 Today's neoliberal imperialism crushes all unfavourable conditions through multiple forms of oppression to ensure the creation of a world in its own image The systemic and structural oppression birthed by neoliberal imperialism once again reproduces and implements colonialism armed robbery on a global scale The difference between the old form and the new form is the scale of destruction and the overt use of Weapons of Mass Destruction Hence the militarization of the globe is a natural outcome In this book Professor Tatah Mentan argues that United Fruit Company for instance could not have flourished without the strong support of the Marines the U S State Department and all of its resources In fact the French the German the British and the Belgian financiers could not have been able to suck the blood out of their colonies without their legionnaires soldiers mercenaries preachers merchants and generals Specifically the Western colonial empires in the nineteenth century presented their penetration pillage and rape of Africa Asia and Latin America as modernization and tutelage aided by the ideology of survival of the fittest This conceit pervaded the entire Western bourgeois social science educational and religious institutions And today there is the same clear symbiotic relationship between business and the military Empirical realities demonstrate that companies like Microsoft could not enjoy its overwhelming prosperity without having the strong military that America has This is precisely why neoliberal imperialism operates alongside oppressive militarism war and dictatorship and must be disrupted to liberate mankind from its death grip **Trade Unions in a Neoliberal World** Gary Daniels, John McIlroy, 2009

Written by very well respected contributors this comprehensive volume provides readers with an academic examination and comparison of the politics of industrial relations in the UK and Europe **Neoliberal Africa** Professor Graham Harrison, 2013-04-04 Neoliberalism has shaped African development for nearly thirty years As such it is not an economic shock or a structural adjustment but rather a historic shift in Africa's development politics and policy This book explores the ways in which African countries have experienced the neoliberal project highlighting how this project has gone beyond economic liberalisation and towards a bolder social transformation As an ideology neoliberalism projects an end point not simply of a market economy but of a market society After thirty years of projects aid disbursement technical assistance and conditionality this book maps out the extent to which African states have cleaved to neoliberal directives It suggests that

neoliberal progress in Africa is notably limited in spite of the resources behind it and the lack of alternatives to it **Vicious Circuits** Joseph Jonghyun Jeon, 2019-03-12 In December of 1997 the International Monetary Fund announced the largest bailout package in its history aimed at stabilizing the South Korean economy in response to a credit and currency crisis of the same year **Vicious Circuits** examines what it terms Korea's IMF Cinema the decade of cinema following that crisis in order to think through the transformations of global political economy at the end of the American century It argues that one of the most dominant traits of the cinema that emerged after the worst economic crisis in the history of South Korea was its preoccupation with economic phenomena As the quintessentially corporate art form made as much in the boardroom as in the studio film in this context became an ideal site for thinking through the global political economy in the transitional moment of American decline and Chinese ascension With an explicit focus of state economic policy IMF cinema did not just depict the economy it also was this economy's material embodiment That is it both represented economic developments and was itself an important sector in which the same pressures and changes affecting the economy at large were at work Joseph Jonghyun Jeon's window on Korea provides a peripheral but crucial perspective on the operations of late US hegemony and the contradictions that ultimately corrode it **Law and Poverty** Frank Munger, 2017-11-28 Socio-legal research on the legal experiences of the poor reflects an understanding of the close connection between economic inequality and law The first two parts of this volume illustrate general analytical approaches to law and poverty The remaining parts include essays which examine more specific issues such as race and gender access to law legal consciousness and social change Research on the relationships between poverty inequality and governance still leaves many questions unanswered but the work presented here reflects the important contribution that socio-legal research makes to the ongoing debate Journal of Economic Literature, 2000 Contemporary Economic Theory Andriana Vlachou, 1999 **Finance, Diplomacy and Development** Helen Lanto Quan, 2002 **Choice**, 2006 *Alternative Press Index*, 2005 **The British National Bibliography** Arthur James Wells, 2000 **Brazilian journal of political economy**, 2004 **World Regions in Global Context** Sallie A. Marston, Paul L. Knox, Diana M. Liverman, 2002 This explicitly global approach to world regional geography emphasizes global connections and the stories behind the maps and offers lively discussions of how these forces and processes play themselves out in individual places The authors make the most current and powerful ideas in geography accessible to the introductory student Emphasis on core regions key cities and distinctive landscapes accommodates a global connections approach as well as the course's traditional focus on places at the local scale **Marksizm -- proshloe, nastoiashchee, budushchee**, 2003 *Out of the Red* Mitchell Alexander Orenstein, 2001 A comprehensive parallel study of two critical East Central European transition economies **Radical Philosophy Review**, 2001 **Sociological Abstracts** Leo P. Chall, 2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to
