Ethical Theories A. I. Melden, 2008-11 ETHICAL THEORIES A Book of Readings Edited by A I MELDEN Ph D Associate Professor of Philosophy University of Washington Seattle Washington New York PRENTICE HALL INC COPYRIGHT 1950 BY PRENTICE HALL INC 70 FIFTH AVENUE NEW YORK ALL RIGHTS RESERVED NO PART OF THIS BOOK MAY BE REPRODUCED IN ANY FORM BY MIMEOGRAPH OR ANY OTHER MEANS WITHOUT PERMISSION IN WRITING FROM THE PUBLISHERS Printing October 1950 Second Printing March 1951 PRINTED IN THE UNITED STATES OF AMERICA Preface MY ASSUMPTION in preparing this volume of readings has been that the most effective way in which an understanding of ethics or moral philosophy can be promoted is through a reading of the original source materials essays written by outstanding and representative thinkers In choosing the materials for this volume I have been guided by several considerations a the extreme importance of presenting fairly complete essays with as few deletions of material as possible in order to avoid presenting fragmentary selections that are intelligible only in the light of the omitted context b the desirability of limiting the selections to those that are most relevant to contemporary ethical theory and c the importance of including materials from the recent as well as the remote past The present design therefore is not to present a source book in the history of ethics Although selections have been arranged chronologically there are important omissions The most unfortunate of these is Spinoza Only

material from the Ethics will do but the discussions of ethics in that work are inextricably woven together with discussions of the theory of knowledge psychology and metaphysics Similar considerations prompted the omission of the examples of Christian ethics from the writings of Augustine and Aquinas It would be impossible to supply more than fragmentary samples of the ethical theories of these thinkers and my objective has been to supply actual texts that could be understood and studied on their own account The difficult problem of choosing readings has been complicated throughout by the necessary limitation of space How well the aforementioned considerations of this volume have been met by the selections chosen is a matter on which there will be differences of opinion Inevitably compromises have been necessary My indebtedness extends to many but chiefly to Professors Arthur E Murphy of Cornell University and Charles A Baylis of the University of Maryland for their encouragement and valuable suggestions to my colleagues at the University of Washington Professors Everett J Nelson Melvin Rader and Arthur F Smullyan for their encouragement advice and the benefit of many stimulating hours of discussion on the subject of ethics and to Mrs Helen Lea for her patient invaluable assistance in the preparation of the manuscript Acknowledgments to publishers and individuals for permission to reproduce material are to be found with the selections v Table of Contents EDITORS ESSAY On the Nature and Problems of Ethics 1 PLATO The Republic of Plato Books I and IX Selections from Books II IV VI and VIII Translated with introduction and analyses by F M Cornford 20 ARISTOTLE The Nicomachean Ethics Books I II and X Translated by W D Ross 81 EPICURUS Epicurus to Menoeceus Translated by C Bailey 113 Principal Doctrines Translated by C Bailey 116 EPICTETUS The Encheiridion or Manual Translated by G Long 119 THOMAS HOBBES Leviathan Part I Selections from Chapters VI XI XIII XIV and XV 133 JOSEPH BUTLER j Sermons Preface I II III and XI 145 DAVID HUME An Enquiry Concerning the Principles of Morals Selections from Sections I II III V VI IX and Appendices I and III

Ethical Theory and Social Issues David Theo Goldberg, 1989 **Rightness**

and Goodness Oliver A. Johnson, 1959 This book is the result of a project that I started work on a decade ago but later laid aside for several years At the time I began my study of the deontologists it was my impression that the movement was virtually ended with only a historical interest for ethicists Since then I have revised my opinion Although few writers today can be called followers of the deontologists much that is being written even by those who reject the deontologists basic assumptions bears witness of their influence The continuing vitality of deontological ethics it seems to me rests mainly on the deontologists profound respect for the concrete facts of man s moral life In evaluating any ethical theory the question they ask is not Is the theory neat and simple but rather Does it accurately reflect our deepest moral convictions In its persistent attempt to do justice to the facts even if this means abandoning the major tradition in the history of Western ethics lies the main strength of the deontologists position Whatever the fate of their own theory may be the deontologists have in their real concern for the facts made a significant and I think lasting contribution to ethical thought Many people far too many to mention here have helped in one way or another with the production of this book **Francis Hutcheson and**
