Contemporary Families:

Handbook of Contemporary Families Marilyn Coleman, Lawrence H Ganong, 2003-12-15 Coleman and Ganong recruited an outstanding group of scholars to contribute to the Handbook of Contemporary Families. Authors represent a wide array of disciplines and the topics touch on every aspect of family life. The organization of the book is excellent and the writing of high quality. Scholars and students alike will find the book a valuable resource. Alan Booth, Penn State University. Marilyn Coleman and Larry Ganong have produced a comprehensive handbook exploring the changes and challenges confronting contemporary families. The chapters written by some of the most distinguished social scientists studying families give a balanced research based analysis of some of the most contentious issues of our time. E Mavis Hetherington, University of Virginia. This useful handbook brings together many of the most important new findings and provocative ideas about America's diverse and changing families. An excellent resource. Stephanie Coontz, author of *The Way We Really Are: Coming to Terms with America's Changing Families*. What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future. The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H Ganong, along with a multidisciplinary group of contributors, critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education, and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live, including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion and families, racial and ethnic diversity, a feminist vision for families, older families, and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing, and human development. The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines including Family Science, Human Development, and Family Studies, Sociology, Marriage, Family Therapy, and Social Work. **Shifting the Center** Susan J. Ferguson, 1998. Presents 48 articles on the family brought together to meet four pedagogical roles: to deconstruct the notion of a universal family over time and across culture; to reflect cutting edge scholarship by well known family scholars; to integrate race, ethnicity, social class, gender, and sexuality in the **Handbook of Contemporary Families**. Marilyn Coleman, Lawrence H Ganong, 2004. Coleman and Ganong recruited an outstanding group of scholars to
