Contemporary Literary Criticism Modernism Through Poststructuralism:

Contemporary Literary Criticism Robert Con Davis,1986 Acting, Rhetoric, & Interpretation in Selected Novels by F. Scott Fitzgerald & Saul Bellow Jamal Assadi,2006 Original Scholarly Monograph The Reading of Theoretical Texts Peter Ekegren,2002-01-04

Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended

Practicing Theory and Reading Literature Raman Selden,1989-07-28 A clear and accessible demonstration of how contemporary literary theories can be applied to a wide range of texts from Shakespeare Bunyan Sterne Keats to James Stevens Joyce Pinter Updike and Arthur Miller

Practising Theory and Reading Literature Raman Selden,2016-04-22 Practising Theory and Reading Literature provides an accessible introduction to the study of contemporary literary theories and their applications to a range of literary texts This is an elementary introduction where the emphasis is on practice and in this respect it complements A Reader s Guide to Contemporary Literary Theory

Reading the Written Image Christopher Collins,1991 Reading the Written Image is a study of the imagination as it is prompted by the verbal cues of literature Since every literary image is also a mental image a representation of an absent entity Collins contends that imagination is a poesis a making up an act of play for both author and reader The willing suspension of disbelief which Coleridge said constitutes poetic faith therefore empowers and directs the reader to construct an imagined world in which particular hypotheses are proposed and demonstrated Although the imagination as a central concept in poetics emerges into critical debate only in the eighteenth century it has been a crucial issue for over two millennia in religious philosophical and political discourse The two recognized alternative methodologies in the study of literature the poetic and the hermeneutic are opposed on the issue of the written image poets and readers feel free to imagine while hermeneuts feel obliged to specify the meanings of images and failing that to minimize the importance of imagery

Recognizing this problem Collins proposes that reading written texts be regarded as a performance a unique kind of play that transposes what had once been an oral dramatic situation onto an inner imaginary stage He applies models drawn from the psychology of play to support his theory that reader response is essentially a poietic response to a rule governed set of ludic cues
