*Contemporary Photography and the Garden* Thomas Padon, 2004-11-01 Gardens have inspired artists for hundreds of years. In the late 19th and early 20th centuries, photographers ranging from Eugène Atget to Edward Steichen were drawn to gardens for their beauty and their metaphorical associations. A century later, in the mid 1980s, an unusually large number of artists returned to the garden as a subject for their photography. Whether presenting it as a haven of tranquility and lyrical beauty or drawing on it as a dark visual metaphor for the manipulation of nature, these photographs express the artists' investigation of the forms, atmosphere, and symbolism of the garden. The essays bring historical and contextual insight to the fascination many contemporary artists have with this popular subject. Contemporary Photography and the Garden Thomas Padon, 2004-01-01 **Deceits and Fantasies** American Federation of Arts, 2003\* Gardens Robert Pogue Harrison, 2010-10 Humans have long turned to gardens, both real and imaginary, for sanctuary from the frenzy and tumult that surrounds them. Those gardens may be as far away from everyday reality as Gilgamesh's garden of the gods or as near as our own backyard, but in their very conception and the marks they bear of human care and cultivation, gardens stand as restorative, nourishing, necessary havens. With *Gardens*, Robert Pogue Harrison graces readers with a thoughtful, wide-ranging examination of the many ways gardens evoke the human condition. Moving from the gardens of ancient philosophers to the gardens of homeless people in contemporary New York, he shows how, again and again, the garden has served as a check against the destruction and losses of history. The ancients explained: Harrison viewed gardens as both a model and a location for the laborious self-cultivation and self-improvement that are essential to serenity and enlightenment, an association that has continued throughout the ages. The Bible and Qur'an, Plato's Academy and Epicurus's Garden School, Zen rock and Islamic carpet gardens, Boccaccio's Rihaku, Cao Xueqin's *Italo*, Calvino's *Ariosto*, Michel Tournier, and Hannah Arendt all come into play as this work explores the ways in which the concept and reality of the garden has informed human thinking about mortality, order, and power. Alive with the echoes and arguments of Western thought, *Gardens* is a fitting continuation of the intellectual journeys of Harrison's earlier classics, *Forests* and *The Dominion of the Dead*. Voltaire famously urged us to cultivate our gardens; with this compelling volume, Robert Pogue Harrison reminds us of the nature of that responsibility and its enduring importance to humanity. **After the Revolution** Eleanor Heartney, Helaine Posner, Nancy Princenthal, Sue Scott, 2013-11-04 Why Have There Been No Great Women Artists? asked the prominent art historian Linda Nochlin in a provocative 1971 essay. Today, her insightful critique serves as a benchmark against which the progress of women artists may be measured. In this book, four prominent critics and curators describe the impact of women artists on contemporary art since the advent of the feminist movement. **Shirin Neshat** Arthur C. Danto, 2010 Not only is this book filled with breathtaking imagery; commentary is included to get a better glimpse into the creative process of one of the most original artists of our time. Zinke Magazine Her eponymous new book is anything but simplistic. Shirin Neshat chronicles the artist's exploration of

complex themes such as exile and the role of gender within Islam National Public Radio A handsome and provocative monograph a powerful and moving group of artistic snapshots that undoubtedly will make readers interested in viewing the original film and video works in their transcendent and spiritually absolute glory Fest21 com Shirin Neshat's work has never been afraid of tackling the binaries pulling us in opposite directions whether they be tensions between East and West men and women faith and reason FlavorPill com
